At least I have one faithful reader in the person of Jim Poole, who is now stationed at San Diego. He is sort of taking me to task for not publishing enough pictures of the Santiam area. Maybe I'm a little slow on this move, but in time I hope to be able to do more of this type of thing here. It is quite an expense to publish pictures, but I know full well their impact on the reader's eye.

Because Jim's criticism is well-founded, we print part of his letter herewith:

"Dear Don:  
"In the last few editions of The Enterprise I have noticed that you have taken a few digs at the highway department and others because they haven't given the Santiam Highway and surrounding area its just due.

"On close inspection of the front page of The Enterprise I noticed something that I must have seen a dozen times but paid no attention. 'On the Scenic North Santiam Highway—Gateway to the Heart of Nature's Empire.' I agree, but a person not knowing that country would have no reason to. I can't remember, for the purpose of displaying their natural beauty, any pictures ever appearing in the paper.

"If no one else will advertise for us let's find some way of doing it ourselves.

"The reason I am writing this is because a similar situation existed in Livingston, Mont. Now the Park County News, printed in Livingston, carries from one to several pictures of the area in every issue. The editor couldn't do it alone but with the help of the local citizens he is doing a fine job.

"A man stationed with me is from there, and each week when his copy arrives you will see a dozen guys grouped around to see the paper. A lot of comments of future trips to that part of the country can be heard. I'm sorry that isn't true of The Enterprise.

I can think of dozens of pictures that would fill the bill—Marion Lake, Elk Lake, the Dam and the Santiam, just to name a few.

"This is not meant as criticism but as a suggestion.  
"If everything goes as planned we'll be seeing you the latter part of September.

Mr. and Mrs. Stanley Chance and children spent Sunday at the coast. Mr. Chance was on vacation the past week and during that time, he and Al Shelton, went fishing in the lakes across the mountains. They were fishing at East Lake when they were chased off by huge waves and a heavy rain storm. They also fished in Paulina, Elk, Wickiup, Big Lake and other spots. They did catch some nice fish.

Rev. and Mrs. Robert Roach and two children left early this week for Oakland, Calif., and a several weeks' vacation from his duties at the Presbyterian church. While in the south, they will see his sister, Betty leave by plane for New York from where she will board a ship to Europe to attend her Junior year of college at the University of Geneva, Switzerland. Miss Roach will be commissioned Sunday by her father, her brother, and other ministers under the Presbyterian "Junior Year Abroad" program. At first, she was scheduled to go to Beirut, Lebanon, but due to her ability to speak French, her itinerary was changed to Geneva, Switzerland, much to the relief of her family and friends.
