DOUGHNUTS
Saturday and Sunday

*The North Santiam Area Offers Great Opportunity for
Rock Hounds, Treasure Hunters and for Mining - Industrial Interests*

★ Scio, Thomas Creek Lebanon,
Jefferson, Stayton

Serve the rockhound with good agate material and petrified woods. These localities and others in the Sweet Home area are known world-wide for superb petrified woods and for the famous blue agate.

★ Stayton Area (east and west)
Is where many good Indian arrow heads have been found.

★ Lyons, Turner, Scotts Mills
Fine fossil localities in these areas.

★ Near Mehama

In the Elkhorn vicinity is the famous Mount Horeb Lost Gold Ledge that has attracted and challenged treasure hunters and prospectors for years. (Ask about it at the WAM News office.)

★ Mill City and Gates

Gateway to prospecting and mining of GOLD, lead, zinc, silver and other precious metals. Roads and trails from Gates lead both to the North Santiam mining district and to the South Santiam mining district (Quartzville area.)
