

How to lose

a lot of weight
safely

Maybe you've been in our pharmacy and noticed all the ways there are to lose weight. Pills, tablets, capsules—all kinds. Most are designed to reduce your appetite—and thus, you. All well and good, but if you have a serious weight problem, there is only one sensible thing to do. See your physician. He will prescribe a diet, tailored to your condition, with proper drugs and nutritive supplements to make it safe and sure. We, as pharmacists, dispense these more potent drugs only at his direction—a practice which exists for one reason—to protect your health.
