He was the only one in his class accepted. His wife and daughter and new baby son, plan a trip to England during his school term, to visit her parents there.

## Up and Down The Avenue

By Don Moffatt

The Fourth of July has come and gone, and people in these parts are again getting back to normal. A lot of hard work went into getting this year's celebration, ready for the people. The Mill City Volunteer Firemen deserve a lot of credit for the fine job they did with the fireworks this year. It was by far the best display ever put on here. The Lion Club breakfast was a bang-up affair, and those who worked in the kitchen really had a workout, but it was fun. Buzz Fleetwood "hit the deck" at 4 a. m. to get the big kitchen grill hot and ready to put out those delicious hot cakes. Many other Lions did their stint cooking and in the dishpan or elsewhere.

We tip our hat to TAC, that energetic bunch of young folks, who battled the elements of indifference to put on one of the finest parades ever witnessed here. Of course there were a few minor snipups, but one of the Teenage Committee said, "it won't happen again, as we'll begin planning in January for next year." I'll bet they do it too. They went ahead with things where older groups failed to muster the courage or interest to help out on the job.

I got in on the job of helping the firemen collect, or "pass the hat" to get money to help defray the expense of the fireworks. That was

Last summer we reported some visitors from a little place called Pleasant Plain, Iowa. A man from Stayton read the news item, and contacted the family mentioned, hoping to get a little information about his family from which he was orphaned at 14. Not only had they heard of his family, they had known them personally, and during the year had several exchanges of letters, he learned many interesting things. Small world, etc., etc.

Bible school classes will begin Monday morning, July 13 at 8:30 in the Gates Sunday school rooms. Classes will be for the morning hours only, with a light snack served by the teachers.

really a revelation. You certainly meet all types when doing this little job. For the most part those who had gathered to see the fireworks display, gave generously and cheerfully. Only once did I meet with an individual who wore his "bile on his chin. When I asked he said: "hell no. When in the so and so are they going to start." I was miffed to say the least. A whole lot of we fellows had been up since the wee hours trying to do something good for the area, then get slapped in the face by this type of thing. What can you do? I just buttoned up my Irish temper, and figured—thank God these people are in the minority in our area. The next car the man cheerfully pungled up two bucks as his "share", so you see, everything works out all right if you just keep on trying.

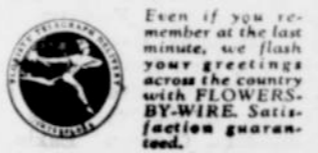

All in all I feel that Mill City had a wonderful celebration. The band, organized by Earl Loucks did a marvelous job marching at the head of the parade, and everyone who worked to make floats, and other parts of the parade, should have the thanks of the entire area for making this a memorable day.
