General Has Winter Tire for Small Cars

New "compact" winter tire for the 1960 compact cars has been announced by Mehama General Tire Service. They forecast a new winter tire sales this year of 5,000,000 units.

The new 13 inch tubeless winter tire, a fatter, shorter, lighter version of the company's regular line of Silent Safety Winter Cleat, will take the smaller cars everywhere their heavier counterparts can go according to J. Glenn Julian and Grant Smith of Mehama General Tire Service. They will carry the same guarantee as the tires for the larger cars, "You Go in snow, or we pay the tow."

The 13-inch tire can be used for either high-speed driving or dry pavement or for operation under heavy snow-slush conditions.

"Snow treads are as essential for the small cars as they are for heavier cars," said Mr. Julian.

FIGHT TB WITH CHRISTMAS SEALS

Our North Santiam—

Some talk of places in pompous pride.
Few try our land to savagely slam.
But their words can never, never hide
The gracious goodness of our North Santiam.

The humid days, almost sleepless nights,
Tornadoes that carry your house away,
Make me think our coast's good sights
Is just the place I ought to stay.

Ruin not my nerve by constant complaint,
But evaluate places in a sensible way.
Then live and love as a sensible Saint
For we're all made of the same old clay.

When you've gone fast and far—
—saw much,
When you've had plenty of jar and jam,
When you've had much grief, got in Dutch—
You'll gladly turn to North Santiam.

Striving to do better,—Oh sure—
Paving roads, getting more plants;
Nothing's too good for us to endure
For we use not bad railing rants.

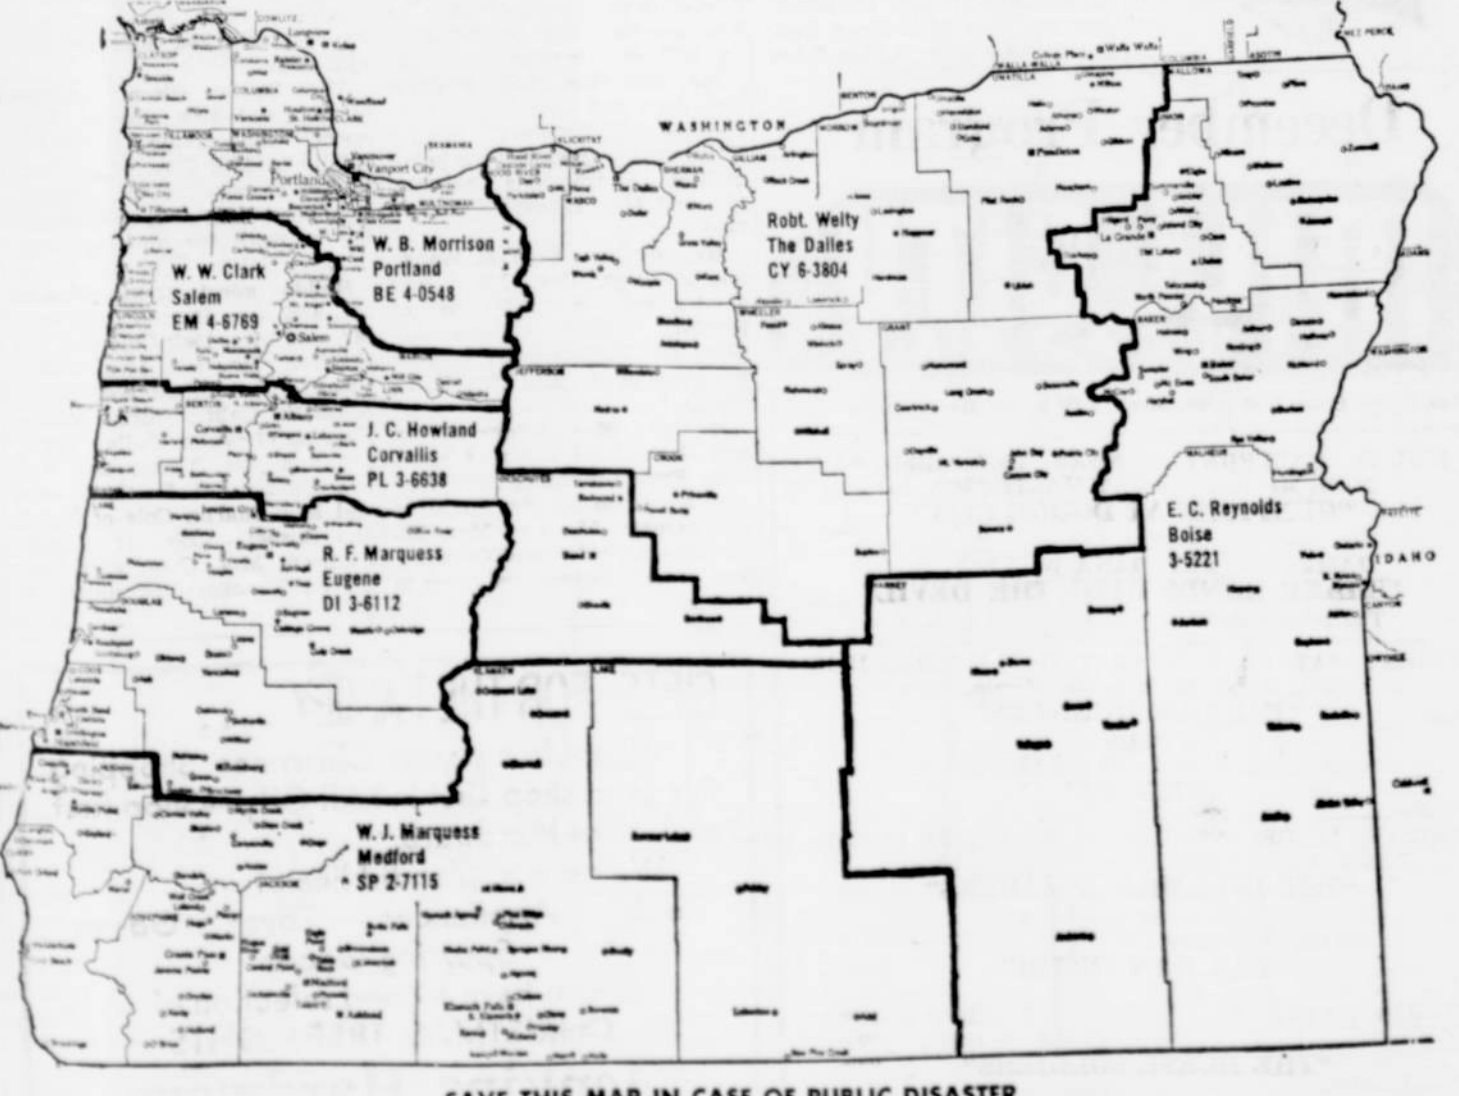

Two thousand acres of good berry lands,
Watered by the river's friendly dam,
Are fine fortunes for helping hands
Now living on North Santiam.

Mills that hum along the line,
Ponds of logs that are ajam,
Hardboard material—fir and pine—
Help glorify our North Santiam.

Sparkling hot waters, minerals of health
Bubble in scenery 'bove the dam.
And happy people of sensible wealth
Say nothing beats our North Santiam.

If the Social Securities of F.D.R.
Are good stars to the goal of man,
Then live and love, as you now are,
On the banks of the North Santiam.

SAVE THIS MAP IN CASE OF PUBLIC DISASTER

The Consulting Engineers Association of Oregon, as a public service project, has set up a Public Disaster Committee. To help immediately in case of a disaster, Oregon has been divided into seven districts and a disaster contact engineer has been appointed in each district. The districts, engineers and their telephone numbers are shown on the above map. In case of a public disaster, like the Roseburg explosion of last August, a call to the disaster contact engineer in your district will bring immediate help to determine what buildings and utilities are safe and for how long. Clip out this map for use in case of a future emergency.
