LETTERS TO THE EDITOR

Dear Editor: How long has it been since the City Insurance has been put out to bid?

Has there ever been a budget audit to try and decrease department spending?

Has there ever been an itemized report from the Street Department?

Why doesn't the City publish the minutes of their meetings and a monthly budget report?

Why has there been no recent publication of sewage treatment plans and costs?

Why can't we have a breakdown on true police man-hours and complaints?

Is City equipment never used for personal gain?

Is the City paying for police placement of school teachers and "bike jockeys"?

Does the Police service justify such a fantastic budget?

In 1965-66, over 20 per cent of your property tax went directly to the City. In 1966-67, it will in all probability be near the same if the proposed budget is passed by the voters.

Perhaps the majority of the Council has forgotten that this City's average citizens are retired or hourly wage earners and cannot afford excess taxes and sewers, too.
