

ARE YOU SATISFIED

...with LESS than you pay for?

WOULD YOU BE CONTENTED with eight eggs for a dozen... three quarts of paint for a gallon... one and a half socks for a pair? No? Yet, as a matter of fact, you actually do get short-valued — on the things you buy away from home.

It's basic economics, you know... some 30% of the price tag on goods is community overhead expense — city, county, school services, and the development of better job and business opportunities for the exclusive benefit of the people who live in the community where the purchase is made.

Which simply means that trading in the area where you live is the only way to get all of your money's worth.

It Pays to Buy Where You Live

These Firms Are Genuinely Interested in the Future of Our Community and Your Welfare
