Polly Pacific Suggests 'Give Better Electrically'

"Give Better Electrically" makes for easier shopping this month for those who wish their gifts to provide year-around pleasure, comfort and convenience for family and friends.

Electric appliance dealers have their show windows and display floors filled with new models in a wide range of useful household appliances—all practical choices for the Christmas shopper.

"Giving better electrically can mean a useful gift under the tree for any member of the family," suggests Polly Power & Light Company's Polly Pacific home service representative.

"Home appliances for the kitchen and laundry are

among the finest all-family gifts in Santa's sleigh this year," notes Polly Pacific. "An automatic dishwasher is especially welcome because it means the end of most of the drudgery of the kitchen."

The home laundry center is another place where electrically powered appliances save hours of work for today's homemakers. Electric washers and dryers are feature items at most appliance dealers.

Cordless appliances powered by rechargeable batteries are becoming more popular. These cordless units include electric tooth brushes, shavers, radios of various types, handy flashlights and toys for small fry.

Gifts the whole family would enjoy include stereo record players and tape player systems, television and combination AM and FM radios.

A variety of electric kitchen aids will please the hostess of the household. These are broilers, buffet cookers, warming trays, blenders, electric can openers, carving knives and a host of other small appliances. Teen-agers make good use of hair dryers, electric tooth brushes and shoe polishers.

New electric tools for dad's workshop are available in a wide range of prices. He'd also welcome an electric lawnmower or hedge clipper.

And for the person who has everything, shoppers might consider these items from a Christmas catalogue: electric back scratchers, electric hair rollers and believe-it-or-not electric bird baths.
