

Mrs. Hazel Goodman has been confined to her home recently by illness. The Bank Cafe, which she and her husband operate, had been closed for the holidays was unable to open on schedule because of her illness.

Many from here have been visiting J. C. (Doc) Kimmel at Santiam Memorial hospital in Stayton. He said he expects to be able to return home the latter part of this week. Emergency surgery was performed while in the hospital. After a rest at home he will again return to the hospital where he will have his gall bladder removed.

Mr. and Mrs. Clarence Jones who have lived here for over seven years moved Sunday to their new home at Bellevue, Washington. They made the move to be near their son and family.

Mr. and Mrs. Jim Swan spent last week visiting in Gold Beach with their daughters and families. Mr. and Mrs. George Gillenwater and Mr. and Mrs. Orville Oderman. Mrs. Gillenwater has been in poor health for some time.

Guests last week-end of Mr. and Mrs. Jack Scott were Mr. and Mrs. N. W. "Andy" Aderberg and Kim of Madras, formerly of Mill City.

The Scotts and Aderbergs were dinner guests at the home of Mr. and Mrs. Lee Bassett on Sunday. Other guests were Mr. and Mrs. Bob King, Gary and Colleen of Independence. Mr. King was formerly local supervisor for Pacific Power and Light Co. at Stayton and is now serving the company as Local Manager at Independence.

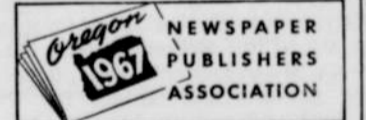

Mr. and Mrs. H. I. Plymale went to Lebanon Sunday to visit his brother, Ray Plymale, who is confined to the hospital following a serious mill accident recently. They said he is getting along as well as can be expected.

Mr. and Mrs. Don Walker have returned home from a combined business and pleasure trip to Los Angeles. They made the trip by plane.

Mr. and Mrs. Harvey Kanoff have returned from Yakutat, Alaska, where they spent the past five months. He cooked in a logging camp there and plans to return in March.

Evelyn Harlan attended a paint merchandise meeting in Corvallis Thursday. Mrs. Harlan, former owner of the Paint Pot in Mill City, is now manager of the paint department at a Stayton store.

Mrs. Richard Freeman, Esther, Earnest and Paul spent Saturday in Eugene attending the "Duck Preview" at the University of Oregon.

Mr. and Mrs. Floyd Shepherd entertained Sunday at a dinner in honor of their son-in-law Milton Roten. Present were Mr. and Mrs. Milton Roten and Barbara Jean from Lyons; Bob Roten from the U of O, Dennis Morley from Stayton, Mr. and Mrs. William Shepherd and family and the hosts.

Attending a district meeting of the Eastern Star in Salem Friday evening at Capitol Masonic Temple were Mr. and Mrs. Merle Garton, Mr. and Mrs. William Metteer, Mrs. Steve Chudzinski and Mrs. Lowell Cree.

Mr. and Mrs. Arthur O'Rourke from Hoopa, Calif., are at the home of Mr. and Mrs. Lowell Cree. They were called due to the illness of their father, George Cree, who was taken by Lyons ambulance to Salem Memorial hospital early Sunday morning.

Kenneth Roth from North Dakota has been visiting at the home of his uncle and aunt, Mr. and Mrs. J. D. MacGregor, Sunday guests at the MacGregor home were her brother and family, the Emil Roths of Salem.

Mr. and Mrs. Herbert Konrad of Laurel Springs, N. J. spent several days last week visiting with their cousins, Mr. and Mrs. Adolph Brunner. They also visited with other relatives here. They had been vacationing in Las Vegas and Hawaii before coming here.

Mr. and Mrs. Noyes Whitten are vacationing in Hawaii at the present time.

Airman 1/c and Mrs. Gary L. Whitsett are the parents of a son born January 22 at Santiam Memorial hospital. The little boy weighed 7 pounds and 1 ounce and has been named Gary Lewis, Jr. Airman Whitsett is serving in the Philippines and expects to get home on leave this summer. Grandparents of the new arrival are Mr. and Mrs. Bonnie Whitsett, Jr. of Mill City and Mr. and Mrs. Harold Strout of Saco, Maine.

Mrs. Bob Veness, former Mill City resident, sent an interesting letter along with her renewal to The Enterprise. The Veness family said they kept up with all their former friends and neighbors through the paper. Mrs. Veness said they were a busy family and she and the girls recently entertained with musical numbers at a successful PTA benefit dinner when \$700 was netted. Mrs. Veness was co-chairman of the event.

Miss Frances Namislo is recovering satisfactorily at home following major surgery performed at Santiam Memorial hospital. She was a patient there for 25 days.

LouAnn Goffin, office employee at the U. S. Ranger Station here spent several days in Portland last week. She was among Forest Service personnel attending an advanced secretarial course.

NEED POSTER BOARD?—MILL CITY ENTERPRISE.

Marine Corps Grad

SAN DIEGO, CALIF.—Marine Private Victor M. Pearson, Jr., son of Mrs. Sylvia I. Baker of Mill City, was graduated from eight weeks of recruit training at the Marine Corps Recruit Depot in San Diego.

He will now undergo about three weeks of individual combat training and then, after leave at home, will report to his first Marine Corps assignment.

The intensified Marine recruit training emphasizes rigid physical conditioning and survival techniques, both at sea and ashore, to develop self-confidence and endurance. Marksmanship with the M-14 rifle and 45-calibre pistol are equally stressed, and close order drill instills the traditions of Marine Corps teamwork.

A thorough study of basic military subjects; hygiene; first aid and sanitation; and the customs, courtesies, history and mission of the Marine Corps serve to polish the new Marine's recruit education and prepare him to join Marine combat forces.

Pen-Raised Illinois Mallard Drake Crosses Continent

Evidently the call of the wild as well as the west was just too strong for a pen-raised Illinois mallard drake so he pulled up stakes, crossed the continent to the west coast, and wound up on the dinner table of an Oregon hunter. The long-range flyer was downed by Bob Queirolo of Portland while hunting along the sloughs near Scappoose in Columbia County.

The cross-country flight in itself is quite outstanding since only a few such journeys are recorded each year. There is some interchange of waterfowl within flyways or adjacent flyways on the north and south migration, but only a few birds ever make direct east-west flights.

The most unique part about this journey, however, is that the mallard drake was a tame bird more than two generations removed from the wild. It was banded last June at Nilo Farms, experimental shooting preserve near Alton, Illinois, and was one of several thousand day-old ducklings raised at the farm for hunting purposes.

Edward L. Kozicky, Director of Conservation for the Olin Mathieson Corporation, advised the Game Commission that these birds are trained to fly over a specified route from the holding pens to the ponds for pass shooting purposes. All pass shooting is confined to blinds and shooters are not allowed to shoot in the direction of the lake in which the birds come to rest. The birds spend the day on the pond and return to the pens in the afternoon and evening to feed.

Now we don't know if this mallard foresaw his fate at Nilo or not. Maybe he just didn't like the idea of running the gauntlet from feed pen to lake every day with shotguns blazing away at his tail feathers, so decided to risk his fortune with his wild brothers. At least he made it all the way to Scappoose, Oregon, before the fortunes of hunting spelled his demise.

Winter Trout Fishing to Lure Anglers

The Oregon Game Commission reminds anglers that many lakes and reservoirs are open to year round trout fishing, under the regular summer trout bag limits, with top prospects in store during the winter months if anglers are willing to brave the cold weather.

Some of the best producers include lakes and impoundments in eastern Oregon, with most of these available to the fishermen. Many lakes will be frozen over and anglers are urged to check the ice before venturing out on it. Fishermen are also requested to check the 1967 fishing synopsis for waters open on a year round basis.

In Zone 5, which takes in the Deschutes drainage, open waters include Ochoco, Haystack, and Prineville reservoirs. These three impoundments normally produce fine trout fishing during winter.

In Zone 6 (the Klamath area) all lakes and reservoirs are open to winter trout fishing except Agency Lake and that portion of upper Klamath Lake north of a line extending from Modoc Point to Eagle Ridge. Regular trout summer bag limit applies, except that only two trout 20 inches or over may be included in the daily bag.

All lakes, reservoirs and dredge ponds are open in Zone 7, which takes in the John Day and Umatilla drainages. Popular fishing waters here include Bull Prairie and Canyon Creek Meadows. Several other fine lakes lie in the higher country and produce good trout fishing, if anglers can reach them over the snow.

Zone 8 includes most of Harney and Malheur counties. In this area, all lakes, reservoirs and dredge ponds are open to winter trout angling except Malheur reservoir with the exception of Malheur reservoir, Krumbo reservoir and Baca Lake. These open and close with the regular trout season. In addition, Malheur,

Owyhee and Snake rivers are available to anglers during the winter.

Zone 9 includes the Wallowa and Elkhorn mountains in northeastern Oregon. Except for Grande Ronde, Anthony and Mud Lakes, all lakes in the Elkhorn Mountains in Grant and Baker counties are open. In the Wallowa Mountains, all lakes above 5,000 feet elevation are open except Duck, Twin and Fish lakes. Anglers should check the rule book for bag limits here, which is increased for the taking of brook trout. The Snake River is also open to year round trout fishing.

West of the Cascades, anglers have numerous waters open under the summer trout fishing rules and bag limits. Along the coast in Zone 1, open trout waters include Devils, Garrison, Mercer, Saunders, Sutton, Triangle and Woahink lakes. In the Willamette Valley, Dexter, Dorena, Fern Ridge and Look-out Point reservoirs; Fern Ridge Borrow Pit, Faraday, Roslyn and Pamela lakes; and the Long Tom River remain open throughout the year.

In the Rogue and Umpqua drainages, Loon Lake, Selmac Lake and Emigrant reservoir are available to the trout fisherman.

Employers Urged to Type Forms 941

Employers are urged to use typewriters or other business machines in preparing Forms 941, the quarterly return for reporting income tax withholding and social security taxes of employees, A. G. Erickson, District Director of Internal Revenue for Oregon, said today.

The reason for this request is that the Social Security Administration is using an optical character recognition machine to transfer wage information from the Forms 941 into their electronic data processing system. This "reading" machine, which will provide improved service to the public, cannot yet read handwritten returns. Returns will be accepted by the IRS, however, Mr. A. G. Erickson explained.

How Would You Spend \$370 Million To Make A Great Railroad Better?

Union Pacific is investing every dollar to improve its facilities and service to its shippers

COIN
Union Pacific's unique COMPLETE OPERATING INFORMATION NETWORK — Computerization, Data Processing, Inventory Control — immediate information on every conceivable function involved in operating one of the world's largest railroads.

ROLLING STOCK
1966-67 commitments add up to \$310 million — 14,700 new freight cars, 165 high-powered diesel electrics.

COMMUNICATIONS
U.P.'s radio network — 3400 miles long — one of the largest private microwave systems in the world. It provides 24-hour traffic control, better car routing and instant car locating service.

FREIGHT TRAFFIC SALESMEN
keeping shippers informed, U.P.'s continuous traffic training programs provide salesmen with current, vital information for every shipper.

RESEARCH AND DEVELOPMENT
Union Pacific's marketing team — chemists, technicians, engineers — formulate and develop new, advanced methods in all phases of railroad operation — transportation and natural resources.

INDUSTRIAL DEVELOPMENT
In 1966-67 alone, an estimated 500 industries will have located in U.P.'s booming West. Plant sites and industrial parks are constantly promoted in the 13 blue chip states of the U.P. West.
