Jehovah's Witnesses To Meet at Eugene

David R. Killian, circuit supervising minister who serves the Stayton congregation of Jehovah's Witnesses, has received the assignment to serve as rooming manager for the organization's "Disciple Making" district assembly at Eugene, August 3-6.

"To find accommodations for 6000 attending delegates takes a great deal of time and work" the minister said. "Besides the use of all available motel and commercial housing, the majority of the conventioners will be staying in private homes."

A corps of volunteer workers were organized this week under Killian's direction to call at private homes, motels and hotels to make rooming reservations for the delegates.

Work Smarter . . Not Harder

THRIFTY SHOPPERS—when you choose a lamb roast, consider the inexpensive shoulder roast, advises Marie Tribble, Extension Nutritionist at Oregon State University.

A lamb shoulder roast is available as a square cut with bone, square cut with bone removed to form a pocket for stuffing, or boned and rolled.

Lamb roasts are simple to prepare. Place roast, fat side up, on a rack in a shallow roasting pan. Roast in a 300 degree oven until the meat thermometer registers an internal temperature of 180 degrees. If you don't have a meat thermometer, figure on 30 to 35 minutes per pound.

WHAT IS IT THAT YOU CAN'T BUY, rent or hire or store? It's true! No matter how much you try to stretch it, there is still just so much time and yesterday is gone forever.

So make sure the time you have is well used. Ask yourself these questions: What am I doing that really need not be done at all? Which jobs could be handled by someone else, perhaps as well or better? (Be a delegator.) Do I do anything that wastes time for others?

These questions may sound simple—but they're not so easy to put into practice.

UNDUE WEAR AND TEAR ON CLOTHES during laundering may be due to one or more reasons.

If you can control the water level of your washer for small loads, it is possible you might be skimping on the water. Use enough water so that the clothes roll over freely. Too many clothes for the amount of water in the tub means more friction on the clothes. (You can burn out a motor this way, too.)

Too much bleach can also weaken clothes so that they wear out faster. Be sure bleach is diluted before adding to the clothes so that they wear out faster. Be sure bleach is diluted before adding to the clothes in the washer.

A Bag of Discarded Clean Nylon Hose can prove a boon for travelers. Stuffed in a sack, they become a pillow at nap time. When not in use as a pillow, they provide a variety of activities for restless youngsters, suggests Mrs. Roberta Frazier, Oregon State University Extension family life specialist.

Pulled over the face they make a good mask. Tie a few pairs together and the children can use them for a tug of war. Stuffed with an old newspaper they make a wiggly snake.

Older youngsters may use them for hand puppets. Starting additional runs in a stocking seems to intrigue some youngsters.

Next time you take a short or long trip, stick in a sack of old nylons to add some fun and interest.

Young Homemakers — if you're trying to cut your food budget, this price study made by Cornell University home economists may be an eye opener.

They found that 2 cups of whipped cream from a pressurized can cost an average of about 72 cents. But if you whip non-fat dry milk the cost is only about 4 cents for two cups.

Prices for the same amount of other toppings are: heavy cream, 42 cents; topping mix, 28 cents; evaporated milk, 10 cents.
