Trade where there's no extra charge for the trimmings

PRICES are always relative...whether they're actually high or low depends on what we get for our money.

Local business and service establishments offer the same goods for similar prices...or less...that we can get in some distant city or town...plus...at no extra charge...more convenience, quicker service in times of emergency, more personal interest in our needs and problems, important help in the financial support and upbuilding of this area in which we live...and upon which we depend for a living.

These extras, and many more are ours...no extra charge...when we patronize our friends and neighbors in business here at home.
