**DOOR TO DOOM!**

**HOW BIG IS DRUG ABUSE?**

Why do so many teenagers try drugs as a runout from reality? From Hoboken to Honolulu kids and many who are no longer kids are sniffing glue for kicks, smoking marijuana, even experimenting with more dangerous drugs. Every morning across the nation thousands of narcotic addicts wake up with a common craving—to get enough illegal drugs so they can hang on through the day.

How big is drug abuse? No one can estimate how many people misuse drugs today.

The director of the American Social Health Association's national program in drug dependence and abuse, Dr. Charles Winick, believes the number runs into the millions.

"The problem of drug abuse is one of the nation's costliest social problems—and continues to spread," he says. "On-shot lectures are not enough to combat it. The urgent need is for research on drug use and abuse."

"We need to know more about why so many persons are adopting the 'tune-in, turn-on, and drop-out' philosophy."

"We need epidemiological studies in communities to determine who and where the drug dependence persons are." Citizens who want to help stamp out drug abuse may write to the American Social Health Association, 1740 Broadway, New York City, to find out what to do.
