### Help us, Mother. Teach your child to dial operator in an emergency

We hope your children will never need to call for help. But it's good to teach them to dial zero for Operator and just as soon as they can learn. You'll feel better and so will we when your children know how to dial "zero" for operator and help.

## Forest Service Gives Rec Report

DETROIT—Catfishing, boating, wild berries, camping and scenic hiking prospects are good in the Willamette National Forest, according to the weekly recreation report.

Fly fishing is exceptionally good in the streams of the Detroit District and the red huckleberries are ripe at the lower elevations. Wild blackberries are also ripening.

Detroit District also has three loop drives. They are Boulder Ridge, Breitenbush Road, McCoy Creek - Skunk Creek and Blowout Road No. 103.

Information may be obtained at the Detroit Ranger Station.

Catfishing on Detroit Reservoir is good on the flats west of town.

Mill City District reports heavy construction on French Creek Road and access to Tumble Lake is impossible without extensive delays.

Kokanee angling is reported to be good in Detroit Reservoir with many of the species the largest ever seen in the lake. Reports indicated they were best found by trolling deep and very slow in the main channel of the lake.

Surface of the lake is quite warm now, so fishing the shallower arms during the day is very slow. The lake is slowly dropping, which also may be a reason for the improvement in the fishing scene here.

The Denver-based rubber company sponsors a nationwide contest (now in its 36th year) to reward service station personnel who provide exceptional customer service. A fleet of "Mystery Cars" regularly travels across the country stopping at service stations. Each "Mystery Car" has a worn fan belt. Award plaques are presented to station personnel who notice the defective belt and offer to replace it.

## OVER-BURDENED

**HOW TO CUT FEDERAL SPENDING**  
One logical way to cut excessive federal spending is to reduce the number of government personnel. In April, 12,352 employees were added to the federal executive department payroll, making a grand total of 2,932,109 people. This exceeds the Korean war peak in January of 1954. It's about three and one-half times as many on the federal payroll during the peak of World War I.

Here are some random examples. If the 19,448 employees of TVA moved to one city, it would have more people than Talladega, Ala., Fairbanks, Alaska, or Whitefish Bay, Wis.

If the Veterans Administration personnel of 172,954 was in one city, this city would replace Nashville, Tenn., as the 73rd largest city in U. S. population according to the 1960 Census.

If the Civil Service Commission with 5,362 employees had its own city it would outrank Monticello, Ark., Brownsburg, Ind., Freeport, Maine, and Walnut Heights, Cal.

The Department of Agriculture has the equivalent of one employee for every 28 farms in the United States, with a total of 111,271 employees.

Proliferation of federal departments, bureaus, and committees expands with unrestrained federal spending, so while Mr. and Mrs. Consumer are expected to tighten up their budget to meet an increase in federal taxes, a realignment of the payroll priorities in the nation's capital is long overdue.

Tuesday no change in their residency is contemplated at this time.

Lester Dade of Junction City has been a visitor for a few days at the home of Mr. and Mrs. Earl Layman. The Laymans and their guest made a tour of the scenic McKenzie Highway Monday. Mr. Dade is an uncle of Mrs. Layman.
