

Game Commission Sets Bird Hunting Rules for State

Oregon bird hunters will have 1968 hunting seasons similar to last year with a long gunning period for most upland game birds and waterfowl, according to the rules adopted by the Game Commission following a public hearing in Portland Friday.

The general upland game bird season for cock pheasants and quail opens October 19 and extends through November 24 except in eastern Oregon, where the season for quail extends through January 19. Bag limit for pheasants in eastern Oregon is 3 cocks daily, 9 in possession, while gunners on the west side are allowed 2 cocks daily and a possession limit of 8. The bag limit for quail is 10 birds daily in the aggregate, 20 in possession.

The general waterfowl season opens on October 19 and extends through January 12, except in Columbia Basin counties where the season extends one more week through January 19. Bag limit for ducks is 5 daily, 10 in possession. Only 3 mallards are allowed in the daily bag this year. Bag limit for ducks in Columbia Basin counties is 6 per day, 12 in possession. Hunters have the same goose bag limit as last year, 3 daily, 6 in possession. The daily bag may be increased to 6 providing 3 or more are snow geese. Only 2 western Canadas are allowed in most of the Willamette Valley area.

Chukar hunters are again allowed a long season beginning October 5 and extending through January 19. This season also includes Hungarian partridge. Bag limit is 8 birds in the aggregate, 16 in possession.

Blue and ruffed grouse hunters will hunt these forest upland game birds from September 7 through 29 in eastern Oregon and from October 5 through November 3 in western Oregon. Bag limit is 3 daily in the aggregate, 6 in possession.

The Commission also set a short two-day sage grouse season in Harney and the south portion of Malheur counties September 7 and 8. Sage grouse limit is 2 birds.

For the second year, the Commission established a general turkey season and included the Wasco and Sled Springs game management units as open areas. This season extends from November 23 through 27 with a bag limit of one turkey for the season.

November 23 through February 23 is the season established for black brant. Bag limit for these coastal geese is 4 daily, 8 in possession. Snipe hunters will have a season from October 19 through December 1, with a bag limit of 8 snipe daily, 16 in possession.

Pamper Your Personal Prosperity with Growth Vitamin

Every drop of water, every bit of fertilizer that you put on a growing plant is returned to you in value . . . increased many times.

And every dollar spent at home instead of in some other community . . . promotes the growth and luxuriance of your own little personal prosperity tree.

We don't expect the neighbors to water and weed and fertilize our gardens so that we won't have to put out any effort on them. But a lot of us expect somebody else to do all of the trad-

ing at home that it takes to support and improve our jobs, our businesses, our schools and churches and other community helps to a richer life.

Trouble is . . . a lot of them are looking for us to keep the ball rolling while THEY go city-shopping.

Let's . . . every one of us . . . remember that loyalty to our home community is merely loyalty to our own economic welfare . . . that scattering our buying power leaves our own personal prosperity plant with less nourishment.

It Pays to Buy Where You Live

These Firms Are Genuinely Interested in the Future of Our Community and Your Welfare
