## May Is Senior Citizen Month Social Security Benefits Noted

Every month there are a number of persons who sign up late for their medicare benefits according to C. I. Flaten, District Manager of the Salem Social Security office.

Noting that May has been proclaimed senior citizens month by the President, Flaten urged those who are approaching age 65 to celebrate by finding out as much as they can about the federal health plan for older americans.

A person should sign up for medical insurance two or three months before he reaches 65, if he wishes coverage of doctor bills to begin in the month he reaches 65. If he waits until later, his medical insurance may not begin until one to three months after he signs up, and if he waits more than three months after he reaches

65, he will not have another chance to sign up for a long time—perhaps as much as a year.

For a person who is a social security beneficiary, the basic hospital insurance protection begins automatically with the month of the 65th birthday. One who is not receiving benefits should check with the social security office two or three months before his 65th birthday about his eligibility.

The Salem Social Security office is located at 702 Church Street, NE. The telephone no. is 585-1793. Regular office hours are from 8:30 a.m. to 4:30 p. m. Monday through Friday. For the convenience of those who cannot visit or phone the office during regular office hours, the office is open on Monday evenings until 7:30 p.

# Plant the Seed

where you expect to Reap

IT'S what you might call a commonly recognized agricultural principle that if you want to do your harvesting on a particular piece of ground, that's the place to sow your seed.

Using the same general type of reasoning, it is obvious that if you want to harvest a nice crop of prosperity . . . in the form of better business, a better job, a better community in which to live . . . it's advisable to plant your trade dollars where they

will produce growth for you, rather than for somebody else.

✓ The homes we live in . . . the jobs and businesses which support us . . . the schools and churches that teach our children and enrich our lives . . . the convenient stores and service establishments that supply our everyday and emergency needs . . . none of these were built, nor are they supported by the dollars that are spent in some other community or city.
