Clean electricity... Santa's helper (yours, too)

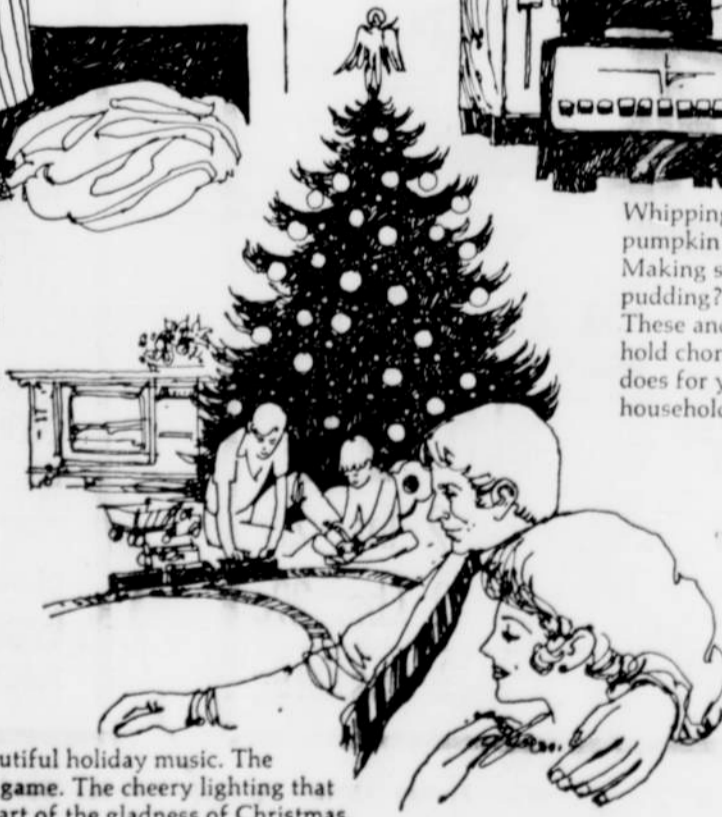

The strawberry shortcake that's so good in December, or the fresh-tasting peach pie in February—they're just some of the nice things electricity helps you do with your refrigerator-freezer. And gone is that messy defrosting job you used to hate. Electricity does that for you... automatically.

Holiday ham or turkey cooks to perfection on your electric range. (So do your meals all year 'round.) Reddy Kilowatt sees to that with temperature controls that do away with guesswork. And how about the way you can relax with your guests while that self-cleaning electric oven is tidying up after itself!

And when it comes to doing up those mountains of holiday linen, your electric washer and dryer really come in handy! And don't forget, the permanent press clothes your children get for Christmas come out wrinkle-free when they're laundered the clean electric way.

Beautiful holiday music. The big game. The cheery lighting that is part of the gladness of Christmas. These are more of the good things electricity brings you. So just sit back, relax and enjoy the holidays. Clean electricity will help you with the work.

Whipping cream for the pumpkin pie? Blending frosting? Making sauce or Christmas pudding? Cooking waffles? These and dozens of other household chores clean electricity does for you with your handy household appliances.
