One Giant Leap For Mankind

"We came in peace for all mankind."

On Sunday, July 20, 1969, American astronauts Neil Armstrong and Edwin Aldrin became the first men to walk on the moon. The plaque they left, "for all mankind," summarized the goals and ideals of America's space program.

Today, five years after the greatest technological achievement in history, millions of people around the world have benefited from the scientific advancement and practical application of this new body of knowledge.

Billions of dollars have been saved as man has learned to monitor weather, pollution and plant disease on a world-wide basis. Satellite photography enables a farmer to pinpoint a crop-destroying disease and control it before serious damage can result.

Satellites give early warnings of severe weather never before possible. And satellite monitoring gives a global view of air and water pollution. Now pollution sources can be pinpointed and the movement of pollutants mapped. In addition, air monitoring equipment developed for the Apollo spacecraft is now in use in ground level pollution detection stations.

A more visible benefit of the space program is the improvement in communications made possible by the satellite. International television comes frequently into the American home, and there is the even greater benefit of cheaper and more reliable long-range telephone communication.

No science has benefited more from the space program than medicine. Through methods developed to monitor the heartbeats of astronauts in space, remote electrocardiography now can constantly monitor heart patients or

broadcast EKG information to a hospital emergency room ahead of ambulance arrival. Space technology is being used in hundreds of medical procedures from cancer research to devices for aiding the handicapped.

Meanwhile, new commercial products which had their beginning in the space program are making life easier, safer and more comfortable.

Nonflammable fabrics and paints reduce the danger of fire. New methods of food packaging and new concentrated high-energy foods provide nutritional benefits. Super insulations, developed for use in space, are used in sleeping bags and sportsmen's apparel and may soon provide energy conserving building insulation.

The list of products continues on and on. From digital clocks to minicomputers, from improved batteries to better clothing, the benefits of space can be purchased in any department store.

And we have only begun. Rockwell International Corporation is now developing the Space Shuttle orbiter for the National Aeronautics and Space Administration.

The Shuttle, which will take off like a rocket and return from orbit to land like an airplane, will multiply the already innumerable benefits of space exploration.

Transporting people, satellites and even entire scientific laboratories into earth orbit will become nearly as commonplace as today's international airline flights.

The reusable Shuttle, which will make hundreds of trips into orbit, will greatly reduce the cost of each space flight from previous programs in which vehicles were used only once.

The benefits of the space program have been abundant. The Shuttle can refine and multiply them making space a catalyst for a better world "for all mankind."

DETROIT IDANHA

Boots Champion

A Reedsport man, making his home here at Mike's Motel temporarily while employed in the area, was taken to Salem Memorial Hospital Emergency Center by Idanha Rural Fire District ambulance, following an apparent heart attack about 11:25 a. m. Friday. John Lawson was stricken while operating a grader at Camp Pioneer above Marion Forks in the Twin Meadow area near Pine Lake. He is employed by Ferguson Construction Co. of Silverton.

Beginning today, Thursday, August 15, My Village Store will have a sale on a wide variety of colorful yarns at \$1.15 a skein. The yarn sale will end August 29. Also have Christmas Card Catalogue. Come in and make your selections early.

Visitors who will be arriving at the Champion home on Friday will be Mrs. Emma Ramage and daughter, Mrs. Joan Asher, and children, Patty and J. T. of Salem. Mrs. Asher will return home on Sunday while Mrs. Ramage and grandchildren will remain for a week's visit. Other visitors on Friday of last week were Mr. and Mrs. W. P. George, Calvin Chambers and a friend of the family, Norma Turner of Salem. Mrs. George and Mr. Chambers are a brother and sister of Mrs. Champion.

Expected to arrive here this week at the home of Ann Fagan on a three week visit is Mrs. Fagan's sister and husband, Mr. and Mrs. Art Grenellier and son, Robert, of St. Louis, Mo. They plan on a fishing expedition at Depoe Bay around the 20th of the month and a visit to Expo-74 at Spokane.

Weekend visitors at the Idanha home of Mr. and Mrs. Clyde Storey were their daughter (Punky) and son-in-law, Mr. and Mrs. Tex Emmerson and children, Ronda and Bobby of Sheridan.

Mr. and Mrs. Norman (Lois) Whittington of Portland, who have visited Detroit frequently, have recently purchased property in the area from E. H. Kimmel. Mrs. Whittington said they were glad to be a part of the area.

Recent guests at the Detroit home of Mr. and Mrs. John Henzel were R. V. Jones of San Pablo, Calif., an uncle of Mrs. Henzels, and Mr. and Mrs. Ross H. Jones, brother and sister-in-law of Mrs. Henzel from Cashmere, Wn.

Mrs. Helen Lichlyter, Idanha, received word early Monday morning that her brother, Roy Wiseley of Little Rock, Ark. died Sunday night. Mr. Wiseley had been in poor health for a number of years. Services were held Wednesday at the Latter Day Saints church at Grannis, Ark.

Kriegers Visit Friends Along Oregon Coast

IDANHA—Mr. and Mrs. Rubin Kreiger spent Sunday visiting friends on the coast and at Halsey, returning home late Sunday night.

They called on Rev. and Mrs. Glen Lyda and family at Cloverdale. Rev. Lyda is a former pastor of Detroit Community Christian church, formerly known as the Church of Christ. Mrs. Kreiger said the Rev. is now in charge of some eight or nine youth camps in Oregon, Washington and Idaho. The camps are sponsored by the Church of Christ. She said this week Winema camp opened as the first Northwestern Christian camp for the deaf, Winema Camp, near the ocean, is one of the camps of which Rev. Lyda has charge.

Traveling on to Lincoln City they called on Mr. and Mrs. Even Evenson. The Evensons were former residents of Idanha. Mr. Evenson served for a number of years as chairman of the Detroit Board of Education.

At Halsey they called at the trailer home of Mr. and Mrs. Robert Kirk, but no one was at home, so they visited with Robert's brother and family, Mr. and Mrs. Dennis Kirk. The Lydas and Evensons sent a message back with the Kriegers that they would like to be remembered to their many friends here.

Idanha Men Play In Softball Tourney

IDANHA — Salem City League slow pitch softball tournament was played at Salem Friday, Saturday and Sunday. There were six leagues involved in the tournament. Philippi Ford of Stayton placed first in their Capitol League. Three Philippi players made the 15-man all star team. They are Stan Gable, Detroit; Dorsey Smith, Idanha and Dennis Allen, Salem. Other local team members are, Donald Hiebert, Donald Leming, Fred Smith, Donnie Clark, Vince Drago and Ricky Williamson. Dorsey Smith is also coach.

The Philippi team placed fourth in the city league tournament.

This weekend, the playoffs for State Championship will be held at Bend. The games on Saturday are slated to begin at 8:45 a. m., coach Smith said.

The Old Timer

"Most people are willing to change not because they see the light but because they feel the heat."

NO PIE IN THE SKY, PLEASE!

GOVERNMENT BY LAW, NOT MEN

One definition of "freedom" in America is "the right to do everything that the laws permit." To those inhabitants of other than the so-called "free world," freedom might mean not being in a labor camp or a prison—or, perhaps, having no less, nor more, than their neighbors.

But here or there, the laws which decree the freedoms are made and enforced by men—but there the similarity ends. They are governed by men and we by laws.

Whether we think them good or bad, the laws which govern us are made only by those persons to whom we grant the privilege.

As those behind the Iron Curtain celebrated May Day by listening to speeches praising their brand of "freedom" dictated by men—we celebrated Law Day as a contrast and as a reminder to ourselves and to the world that our freedom to be governed by laws—not by men—is the best kind of freedom yet devised.
