Up and Down The Avenue

By Don Moffatt

Does it make you wonder whether we're giving too much power to the big labor unions? talk about contribution to political parties. The unions contribute hundreds of thousands of dollars in the hopes of electing people who they feel they can influence or control. I read recently that shortly after the last election they moved to collect some of their IOU's of congressmen and governors whom they helped to elect. They set up a Public Employees Dept. with a monthly budget of \$40,000. That's a lot of money and could persuade a lot of people to possibly shade deals in favor of union desires.

One of the things that big labor is striving for is to guarantee government workers the same rights to representation elections and collective bargaining as workers employed by private firms. I think that government workers have the right to bargain with their employers, which is you and me, but I do feel that they should not be able to strike. The same goes for teachers. I always felt that as educated people they could present their case in such a manner that it could be understood, and if it were not out of line, it could be worked out to the advantage of everyone. The children are the ones who suffer — even though gladly in most cases. To my way of thinking the only good contract is one with a no-strike clause. Most things have to be resolved at a bargaining table eventually, so why not do it the sensible way.

And while on the subject of unions, I do not believe that any worker should be compelled to belong to a union and pay dues, unless it is of his own free will and accord. I know that is not the way unions like to do things, but I still feel that it is the fair way.

I heard on the morning news Friday, that the unions in New York City have loaned the city some \$100 million. That's a lot of clout for them. Running any city or business on borrowed money is a bad thing. These "birds" loans, come home to roost. The interest paid by New York City must be next to impossible to meet. That is a perfect example of what too much relief and too many workers can do to a city budget. The same goes for our government. Better cut off some of the social programs now, instead of waiting until we, too, go down the drain.

I read someplace the other day where now one out of every six people is working on some type of government job. Wow — looks like a case of too many chiefs and not enough indians.

This new agreement between Israel and Egypt is going to cost the United States some \$2 billion in military and economic aid to Israel this year. It also is going to cost another \$800 million for Egypt. I wonder just why we have to pay that kind of money. I do not understand it. It isn't so bad that I don't understand it, but what I am wondering is if the people who are making these deals understand it either. Who knows? I do feel, though that it is a lot of money to be throwing around.

Maybe our government big wigs understand all of this, and I sincerely hope they do.

Wolverines To Play Here Friday Night

For the followers of Santiam football, a new look will be in store when the Wolverines take the field for their first 1975 football game Friday night.

The new Santiam look includes a new offense, and defense; plus a host of new ball players. Offensively, the Big Red will field only two starters off of last year's club. The defense features five repeaters.

Running the "Rush'n T" will be team captain Maurie Richards. He has the speed and deception to be a very effective "T" quarterback.

While the offensive unit is basically inexperienced, the coaching staff has been pleased with their hustle and determination. Defensively, the Wolverines will be aligned in a 4-4 scheme, similar to the Auburn defense. If the Big Red has an early season strength, defense would be the ace in the hole. The front four and linebackers proving to be quick and aggressive.

Coach Powell summarizes the 1975 Wolverines by adding: "we don't have a lot of varsity experience, but if our aggressiveness and attitude continue, we should be a competitive ball club." The Big Red has a history of being competitive.

The "75" season gets underway at Allen Field on Friday night at 8:00 p.m. The first opponent for Santiam will be the Royals from Portland Christian.

Park Dedication Set For Sunday

At 4:00 p.m., Sunday, Sept. 14, the dedication of Mill City's new "Kimmel Park" will be held.

At a city council meeting in July, the council approved the name of "Kimmel Park." The name was presented by representatives of the steering committee. The committee had run a "Name The Park" contest and this was the name receiving the most votes. Mary Youmans and Lois Gruver each submitting the same winning name.

Mayor Donald Huckleby will give the welcome address, and talk about the history of the land and the park development. Rev. John C. Heidbrink will give the invocation.

There will be a reception at the park following the ceremony.

This property was purchased by the city from Mrs. Edith Kanoff during the late Veryl Hoover's term as mayor; 1967-68. Mr. and Mrs. Kanoff purchased the land from the Hammond Lumber Co. It had been used for a lumber stacking and sorting yard; the old railroad swinging bridge was located there also. The cement supports for the end of the bridge still remain. The railroad right-of-way was acquired by Shields ReMine, and bought from him by the city in October of 1971, to allow access to the river.

The park has a total of 10.75 acres and 1900 ft. of river frontage. It is located off Fairview Street west of the Wills Bros. Shingle Mill.

In 1969 work was started on the park with the work donated by many citizens. Linn County surveyors surveyed the property and set corner monuments.

In 1970 the planning commission chairman, Carl Kelly, assisted by Pete Adair, presented a five-year development and maintenance plan to the council.

On January 28, 1971, PP&L donated 400 feet of river frontage in order to square up the park property.

In October, 1971, the city entered into an agreement with the U.S. Bureau of Recreation of the State of Oregon and Linn County, to use federal matching funds for development of the park. For every dollar spent in development, there would be a 50% return. This agreement will close when the development is such

Local Jaycees Take Fast-Pitch Tournament Here

Jim Sullivan was the star of the day as the North Santiam Canyon Jaycees were victorious in the Fast-Pitch Softball Tournament held Sunday on Allen Field. Lebanon and Sweet Home opened the action with Lebanon, behind the strong pitching of Bob Herman, defeating Sweet Home 10 to 4. Sullivan then took the mound for the North Santiam Canyon Jaycees and defeated Sweet Home 3-2 in eight innings. Bill Smith scored the first two runs for the Canyon Jaycees and the winning run was scored by Lloyd Stinson who tripled and scored on a passed ball in the first extra inning of action.

The North Santiam Canyon Jaycees came right back in the championship game to shut out Lebanon 13-0 as Sullivan registered 13 strikeouts and was the recipient of some timely hitting by his teammates. For the day, Sullivan allowed only two runs in 15 innings of pitching.

The Jaycees would like to thank the canyon merchants who sponsored this successful return to the fast-pitch days.
