Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with *Green's August Flower* and *Boschee's German Syrup*, as the reduction of thirty-six cents per dozen, has been added to increase the size of the bottles containing these remedies thereby giving one-fifth more medicine in the 75 cent size. The *August Flower* for Dyspepsia and Liver Complaint, and the *German Syrup* for Cough and Lung troubles, have perhaps, the largest sale of any medicines in the world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size. 2

A Sweeping Reformation.

Up in Beef Gap, Idaho, there is a new city marshal. He was "Onion Bill" before his election, but now they call him "Chief," and add respectfully his last name, Birdsell. Here is a copy of a circular he posted in prominent places in town and its outskirts. It has had a good effect:

NOTICE.

This is to inform the citizens of Beef Gap, and strangers sojourning therein, that from and after this date,

MONDAY, Sept. 20, 1886,

It will be unlawful in this town for anybody, to CAROUSE! CURSE! and WHOOP!

On and after this date also there will be in this town

No more compelling people to drink when they don't feel like it;

No more shooting of dog holes;

No more all day rows out of chances;

No more drinking of whisky out of bottles when the bars are open;

No more card playing;

No more driving or riding a horse into a public car will be shot.

Any man or men spoofing another to cause trouble shall be shot.

Any man raking down the pot at poker without the cards to back it up will be shot.

Tenderfoots, tin-horn gamblers, back door lunchers, loafers, boneyard hunters, scrapers and coffin paint demolishers are WARNED AWAY FROM BEEF GAP.

It is the determination of the new administration to usher in an era of reform, and all good citizens will array themselves on the side of the law. All others will be turned over to the coroner.

By the Mayor.

BILL BIRDELL, Chief.

Educating Cattle.

During the past twelve months the practice of dehorning cattle has made considerable progress in the north, and is beginning to be recognized as one of the advantages of the country. Many good people object to the practice on various grounds, not mainly because nature, having provided horns, it is unbecoming to interfere with them, but because the operation causes considerable pain. Neither of these objections has much weight with the practical stockraiser. Without any intention of criticising on the wisdom of the Creator, it has been so long the practice for farmers upon estates, "with advantage," to be the owner of the animal, that the first objection will be little regarded. Dishorning and spaying of cattle, and the docking of lambs' tails, may be cited in proof of necessity of interfering with nature's handiwork. The other objection that this practice is cruel will have little force with the stranger, when considered. It has been demonstrated beyond a doubt that a full grown animal will suffer less pain in dehorning than a calf, pig, or lamb, in castration, and it is far from being so painful as docking. The fact is the seat of pain is not in the horn, but in the sinews of the head. If the dehorning is done while the animal is young, it will give no more sense of suffering. Horns are a great ornament to an animal, and so long as an animal is only raised for ornament it should remain so, but said animal is required for consumption or domestic purposes, horns become an unmitigated nuisance and a source of danger, and should be removed. It is of no use to an animal except as a weapon of offense and defense, and if all animals were homed enough a dehorning would not be required. The horn is a constant source of danger to man and beast; remove it and danger disappears. Some of the worst cases of accidents, after dehorning, became so gentle and tractable that children could handle them with safety. The absence of horns will permit nearly double the amount of stock to be kept in a given shed space, and the fruit generally leaves the tree with a better color and finish. Cattle will do better in pasture, and will not require so much room in the stable. Dehorning is a practice that will be universally adopted in the near future.

How's Your Liver?

Is one Oriental salutation, knowing that good health cannot exist without a healthy Liver. When the Liver is torpid the Bowels are sluggish and constipated; the food lies in the stomach undigested, poisoning the blood; frequent headache ensues; a feeling of lassitude, despondency and nervousness indicate how the whole system is deranged. Simmons Liver Regulator has been the means of restoring more people to health and happiness by giving them a healthy Liver than any agency known on earth. It acts with extraordinary power and efficacy.

NEVER KNOW DISAPPOINTED.

I have used Simmons Liver Regulator for Dyspepsia and Liver Complaint, for which it is highly recommended, and have never known it to disappoint me. I recommend it to all my friends as the best medicine in the world. I have used it in my family for years, and would not be without it. W. H. SMITH, Madison, Ga.

In Heaven.

There are no blank tickets.

No doctor ever lost a patient.

No lawyer ever lost his cause.

No one twangs a chestnut bell.

No slugger ever slipped his trunk.

No base ball club ever lost a game.

Every yacht carries off the champion cup.

No delinquent subscriber was ever seen.

No candidate was ever beaten at the polls.

No champion oarsman ever sawed his boat.

Every seat is a desirable orchestra chair.

No merchant pursues the crooked way.

No cashier ever inquires the way to Canada.

No bottle salesmen are bound to Stag Sting.

Every newspaper has the largest circulation.

Every preacher has a large salary and congregation.

Every reader has a newspaper that suits him, exactly.

Every merchant owns a waste basket for bad debts.

Every advertiser has the head of the column on the first page.

A Valuable Mineral Treatise.

This splendid book for the benefit of Manufacturers, Agriculturists, Miners and Capitalists, is now ready and may be obtained, free of cost, upon application to the Secretary of the Company. This book contains the most valuable information ever compiled in one volume. It gives the location, description and analysis of every coal, iron ore, clay and mineral deposit in Santa Barbara County, and is illustrated with numerous maps and engravings. It contains information regarding the climate, soil, productions, water supply, etc., etc., and was prepared by the most competent and experienced men in the State. It will be mailed to any address upon receipt of 10 cents, the actual cost of publication. The publishers of the Illustrated Mechanics Almanac for 1887 will prepare for the largest edition of any publication ever published in any country. The publishers will be pleased to receive orders for the same. Send 10 cents for a copy of this book (stamps will be received) and a copy by mail to any person who cannot procure one in his neighborhood.
