GRAND PREMIUM OFFER!

A SET OF THE

Works of Charles Dickens,

IN TWELVE LARGE VOLUMES,

CEARLES DICKENS.

Which we Offer with a Year's Subscription to this Paper for a Trifle More than our Regular Subscription Price.

Wishing to largely increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for a trifle more than our regular subscription price. Our great offer to subscribers eclipses any ever heretofore made. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, masterley delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No home should be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, with new type. The twelve volumes contain the following world-famous works, each one of which is published complete, unchanged, and absolutely unabridged:

David Copperfield,
Martin Chuzzlewit,
Nichols Nickelby,
Dombey and Son,
Bleak House,
Little Dorrit,
Our Mutual Friend,
Pickwick Papers,
Barnaby Rudge and Christmas Stories,
Oliver Twist and Great Expectations,
The Old Curiosity Shop and The Uncommercial Traveler,
A Tale of Two Cities, Hard Times and the Mystery of Edwin Drood.

The above are without a question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay.

Our Great Offer to Subscribers.

We will send the entire set of Dickens' Works, in Twelve Volumes, as above described, all postage prepaid by ourselves, also the EXAMINER for one year, upon receipt of **$3.10**, which is only 10 cents more than the regular subscription price of this paper. Our readers, therefore, practically get a set of Dickens' works in twelve volumes for only 10 cents. This is the grandest premium ever offered. We will also send a set of Dickens, as above, free and post-paid, to any one sending us a club of 4 yearly subscribers.
