The three fastest harness records were made on the Terre Haute, Ind., track last Thursday. Nelson went to beat Axtell's stallion record, and did it in 2:11¼. The free-for-all pacing race was won in three straight heats by Hal Pointer in 2:09½, 2:12¼, and 2:13, making the fastest three heats on record, and the fastest mile ever made in a trotting or pacing race.

The appointment of John N. Irvin, of Keokuk, Iowa, as governor of Arizona a few days ago, recalls an incident in his experience as governor of Idaho under President Arthur. He was called home by a death in his family, and remained in Keokuk several months settling up the estate. The treasury of the United States sent him his salary regularly, but the governor declined it, saying he had not earned any money from the government while at home about his private affairs, and sent the checks back to Washington. This presented a new question for the treasury officials. No one ever had made such a complaint before. They did not know what to do with the money. Finally it was placed to the credit of the conscience fund. This made the old governor indignant, and he forthwith forwarded to the department an emphatic protest. He was unwilling that any money which he sent to Washington should be placed in the same fund with that surrendered by repentent thieves. Then the amount was placed to the credit of the public debt of the United States. His is the only case of the kind on record.

The extra session of congress rumor has again been set afoot and is circulated widely, despite an array of facts that ought to convince any one of its emptiness. The date for the assembling of this suppositious extra session is given as Tuesday, Nov. 11th. It is hardly probable that the president will call an extra session while he is away, yet that is what he must do if congress is to assemble on the 11th prox., for it must convene within thirty days after the call.

A WORD OF CAUTION.

In this as in every other locality where it is known, there are hundreds who are taking Joy's Vegetable Sarsaparilla, and in nine cases out of every ten it is effecting specific cures. But word comes to us occasionally of people who report that it operates too freely upon the bowels. We want to say to those that they are not following the printed instructions and are taking too much of it. If it acts too freely reduce the dose, never taking any more than causes easy and perfect action. Keep this in mind, and take it regularly for a while and do not indulge in too much greasy food, and we will have your testimonial within a fortnight. If taken under these conditions it is an absolute cure for indigestion, dyspepsia, sick headaches, constipation, face eruptions and liver and kidney disorders. It may be asked how it can possibly cure so many ailments. But the reason is clear. All those troubles are the legitimate result of improper liver and kidney action or impaired digestive organs. Its effects upon these functions are as astonishing to the medical fraternity as to the thousands who are daily taking it.
