While camping on Deep Creek last week Mrs. Delia Cray, Mrs. Frank Houston and Essie Cobb caught several hundred trout. Nor was this their greatest feat—these ladies ran short on wood during the absence of George Han-

kins, and, nothing daunted, commenced with their axes on a pitch-pine tree four feet through, and in less than thirty minutes felled the giant to the ground. There is no question about the exact size of the tree, as Hankins measured it after arriving in camp, and everybody knows George takes after his namesake.
