HEARST WARNS BRYAN.

The trio of big newspapers, owned and controlled by W. R. Hearst, are just now booming Mr. Bryan for the presidency with all the vim and energy that hired brains can furnish. These newspapers, the San Francisco Examiner, New York Journal and the Chicago American, belonging to Mr. Hearst, uphold Bryan in his cry against expansion, while at the same time Hearst is one of the greatest of American expansionists. Hearst gave Mr. Bryan a few words of advice in the San Francisco Examiner April 27, 1899:

"We trust that Mr. Bryan will yet range himself in line with the national aspirations for expansion. The time has come, as it comes at intervals to every vigorous nation—as it has come to ours on several former occasions—when the old boundaries are too contracted for the pulsing life within them, and when the health of the body politic demands that room. The popular instinct understands the need for these periodical expansions, and every genuine statesman understands it, too.

"The popular instinct of a nation cannot be changed in ten months, nor can a creature of expediency be converted into a statesman by an appeal to the truths of history.

"Mr. Bryan may think he is close to the people, and that his silly talk about 'imperialism' moves them, but he will soon find out that Americans are as much in favor of expansion to-day as they were when they applauded the acquisition of the Louisiana territory by that noted imperialist, Thomas Jefferson."

GOOD ADVICE.

"If there is any one who believes the Gold Standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me, because I promise him it will not be maintained in this country longer than I am able to get rid of it."—W. J. Bryan, Sept. 16, 1896.

Doubtless the millions of people who have been struck by the wave of prosperity under Mr. McKinley's gold standard administration will accept the warning of Mr. Bryan.

J. W. Reed, one of the brightest men in Idaho, an orator of note, and one of the electors on the Bryan ticket, has cast off the cloak of Bryanism and come out flat-footed for McKinley—and there are others.
