REPORT OF SIXTY FOUR CASES TYPHOID

IN LAKEVIEW IS ENTIRELY FALSE

No Danger of People Becoming Infected With Disease by Visiting this Town to do their Trading.

The Alturas Plaindealer learns from private letters that there is an epidemic of typhoid fever in Lakeview, there being "no less than sixty-four cases, nearly all of which are confined to one street." This is another evidence of how unfounded reports will augment as they pass from mouth to mouth—a matter of going away from home to learn the news. It is a fact that Lakeview has had an unprecedented degree of sickness during the past few months, and it is also true that a few cases of alleged typhoid fever have proved fatal; it is also a fact that there have been many cases of such diseases as measles, mumps, etc., in Lakeview. It is also a fact that there have never been over sixteen cases of so-called "typhoid fever" in this town, and the patients are all convalescent at the present time—all but the three that terminated fatally, of course. It is also a fact that sometimes people die in Alturas—and they do not all die of old age, either.

There is one more fact, also, more important than any other, and that is, that something must be done toward the improvement of the sanitary condition of Lakeview or it will not be long until every house in the town will be turned into a hospital. This is no idle talk, but a terrible reality that we will all have to face. No town in the state is more favorably located for a splendid system of sewage than Lakeview, and The Examiner has always contended that a sewage system was a growing necessity for the health of the town—a much more necessary addition than a city electric light plant.

However, we can state authoritatively that there is no danger, in the least, of people becoming infected while coming to Lakeview to do their trading or attending to other business. Not the least danger.

The Plaindealer very truthfully says in this connection: "There must be something radically wrong with the sanitary condition of the town when such a condition of affairs exist. Nature made Lakeview one of the healthiest spots on earth, and when so much sickness prevails the causes must be sought for in man's indifference and neglect. The same rule applies to all of our mountain towns where sickness prevails. The laws of health cannot long be violated with impunity, and if we would banish disease from our midst we must pay more attention to the sanitary condition of our towns."

MEETING OF CITIZENS.

The Present Board of Town Officers Renominated by Acclamation—B. Reynolds for Town Treasurer.

The meeting of citizens at the Courthouse last Friday night was fairly well attended, and the meeting was called to order by Mayor F. M. Miller, who stated its object.

Mayor Miller nominated Judge Sperry for presiding officer and Charles Umbach for secretary, and they were elected by acclamation.

Judge Sperry, upon taking the chair, offered the suggestion that, inasmuch as the present officers were more familiar than others with the work in detail that is now being prosecuted in the establishment of a new water system and an electric light plant, that they be renominated to fill the positions of Councilmen and Recorder. There was no dissenting voice, and a motion was carried to that effect, and the following gentlemen were renominated by acclamation: Councilmen—Bernard, Arzner, Ahlstrom and Schlagel; Recorder, Umbach.

B. Reynolds was nominated by acclamation for Town Treasurer. The entire business of the meeting was completed in fifteen minutes.

TO THE PUBLIC.

Subsequent to the meeting of citizens called at the County Courthouse last Friday night, I repeatedly asserted to my friends that I did not seek renomination to the office of Councilman of the Town of Lakeview. I have been in the "harness," laboring for the best interests of my adopted town, for many years, and how faithfully I worked for what I believed was right in all things relative to the welfare of Lakeview, I leave the public to judge. I feel it my duty at this time to retire from public office. There are many good and capable citizens in the town who can and will fill my position as Councilman satisfactorily to the public, and I hereby announce that I am positively not a candidate for the office in question. Very respectfully,

S. F. AHLSTROM.

Lakeview, Or., Oct. 30, 1900.

The steam pump and engine for the town water works arrived last Saturday.
