J. C. Dodson last week bought from Walter Lowell of Ft. Bidwell 60 head of stock cattle at \$22 per head with 40 calves thrown in. This is an unusual sale, and we understand the reason of the stock going at such a price was that they were run on shates and the parties interested divided, and Mr. Lowell desired to quit the stock business at once, so let his share go at the first opportunity.

If we could only have six months more of this delightful weather the first part of 1901 would see Lakeview a well built town. At any rate it promises fair to be all built up before 1902, as plans are already made for a continuation of building all next summer. If reports be true there will also be a dozen or more new residences constructed next summer.

Klamath Republican:—Judge E. D. Sperry, the well known Lakeview Lawyer, came to town Monday evening. Judge Sperry with Mr. Hammond represent Mr. Lapham in the water suit on trial. Last Saturday, a very pretty young lady of Lakeview was hugged by one of those grizzly bears in the window at J. S. Field's, while she was looking at that beautiful stock of dress goods that Miss Pearl Burrus, the clerk, was showing her. And what do you think she said? Instead of being frightened she merely remarked, "Oh! how nice! But don't do that again, George, right here before everybody;" she didn't even look around to see who it was that hugged her. Since that the affair got circulated about town and even far into the country, and there have been over 100 young ladies in Field's store since buying dress goods and other things.

## Great Food Producer.

In speaking of the output of stock in Lake county a correspondent to the Portland Telegram says: "This county also furnishes the meat markets with a large amount of prime mutton. It is estimated that at least 10,000 head of beef cattle are sent out of this county in ordinary seasons, and this one being one of exceptionally large outputs, it would not be extravagant to place the present season's sales at 12,000 head. This, added to about 50,000 mutton, will swell the meat supply to such proportions as to place Lake county among the important food-producing sections of the West."
