[Continued on Fifth Page.]

### Two Months Sufficient.

William Miller, popularly known as "Uncle Billy" Miller, and "Scotch" Miller, last week swore out a warrant in the justice court at Salem for the arrest of his wife, to whom he was married on August 22 last. The complaining witness is 86 years old and his late bride is a blushing girl of 60. Mrs. Miller was formerly Mrs. Mary Pearson, of Klamath Falls. According to the complaint Mrs. Miller packed her bag and baggage and took \$140 of her husband's money, and went to Albany. As soon as the warrant was issued Mrs. Miller was arrested in Albany, but on motion of the district attorney and the complaining husband, the action was dismissed and defendant set at liberty. Mrs. Miller immediately set out for Klamath Falls, her old home. The youthful couple had not "kissed and made up" at last accounts.

### Southern California.

Notable among the pleasures afforded by the Shasta Route is the winter trip to Southern California and Arizona. Renewed acquaintance with this section will ever develop fresh points of interest and added sources of enjoyment, under its sunny skies, in the variety of its industries, in its prolific vegetation and among its numberless resorts of mountain, shore, valley and plain.

The two daily Shasta trains from Portland to California have been recently equipped with the most approved pattern of standard and tourist sleeping cars, but the low rates of fare will still continue in effect. Illustrated guides to the winter resorts of California and Arizona may be had on application to C. H. MARKHAM, G. P. A., Portland, Oregon.

### "If Not the Best."

Yreka Journal.

The Lakeview Examiner is now published as an 8-page paper of large size, and is one of the best local papers in Southern Oregon, if not the best. We congratulate Beach & McGarrey, and hope they will always have the fullest measure of prosperity.

All Right Anyway.

We wish to congratulate the Lakeview Examiner on its artistic and up-to-date appearance. If it were of the right politics we could find no fault whatever with it.—Alturas Plaindealer.

For Sale.

The store building and shed, just vacated by S. R. Sublette, will be sold for \$125.00. Situated opposite the Post-office. 44

L. V. Mounts, the Cedarville school teacher who was injured on the rocks while bathing near the Cliff House, San Francisco, a few months ago, has returned to Modoc.

There is no pleasure in life if you dread going to the table to eat and can't rest at night on account of indigestion. Henry Williams, of Booneville, Ind., says he suffered that way for years, till he commenced the use of Kodol Dyspepsia Cure, and adds, "Now I can eat anything I like and all I want and sleep soundly every night." Kodol Dyspepsia Cure will digest what you eat. Lakeview Drug Co.

## J. E. BERNARD & SON, Lakeview, Oregon

When you want to grind with an Aermotor, you don't have to get out in the pasture with hatters on one arm and a dish of oats under the other, and then stand around with a whip in your hand to keep it going. Just see that the hopper is well filled and the grinder properly adjusted, then turn the Aermotor loose. The wind is usually on hand to begin business at once.

The wind never gets tired from overwork. The wind would just as soon get up and go to work at three o'clock in the morning as to lie abed till nine. The wind never has a tired feeling. The wind never has hours or overindulgence. The wind never makes any kick. It is late at night. The Aermotor doesn't drink any hard cider or beer. The Aermotor doesn't eat any potatoes, salt pork or ham. The Aermotor will satisfy for several months.

It never rains too hard for an Aermotor. It never works out of doors. It never gets so dry that an Aermotor slips about the boy who gets a tire on the way to school. It never gets so cold that the shade never gets so hot that the Aermotor has to get out. An Aermotor never gets so long that it is lame back or so sore in any claim for time, and never quits because the other makes of his third have knocked off.

An Aermotor will saw ten boards of wood in a day and get up fresh and ready for work the next morning. How does an Aermotor save one day? An Aermotor has a shell five hundred times as long as a man's arm in a day and it can do a good day's work when the man is at church, while the man's arm is at the mortuary. An Aermotor's responsibility rests upon the wind. An Aermotor has two firm hands and a team of horses and that's why it can do a good day's work without coughing or driving without shirking or grumbling.
