CUT THE PAPER.

Readers of The Examiner are reminded that the pages are cut, pasted inside, and all that is necessary is to run a knife or some sharp instrument through the crease at the top of the paper and it will open out like a book. Do not attempt to unfold and turn inside out, as the pages are pasted inside.

HOW TO DRESS WELL

And at the same time to meet the requirements of one's pocket book is a perplexing question to many people

...WE CAN ANSWER IT...

When you see a well dressed gentleman walking the streets with an up-to-date Suit, Hat, Shirt, and Necktie to match, and you ask him where he "dressed up," he will invariably say

AHLSTROM BROTHERS

There is nothing more to it.

THE MONOGRAM

Baltimore estimates that in ten years its population has increased not less than 100,000. The number of new dwellings erected in ten years is over 20,000. Cincinnati has more than doubled its area by recent annexation, and counts on a population of 500,000. Troy, N. Y., has taken in its neighboring towns, and is looking forward to the 100,000 mark.

An interesting fact in connection with a new overland train that is about to be put into service between St. Louis and Puget sound, by way of Billings, Mont., is that for nearly the entire distance of 2,500 miles it will run through country acquired by the United States at the time of the Louisiana purchase, in 1804.

A few days ago a flock of crows tried to eat a Kalamazoo (Mich.) farmer and now millions of locusts settle down upon one of the townships as though it were a part of ancient Egypt. They made a meal of pretty much everything except barbed wire fences, left their dead unburied and took a bee-line for Indiana.

Statistics being gathered by the board of health of New York indicate that 3,000 more deaths from influenza have occurred during the grip epidemic prevalent since February than during the corresponding period of last year from the same cause.

From commercial authorities we learn that the advanced price of turpentine, resin and naval stores is making many producers rich.

An educational authority says that since the close of the civil war \$100,000,000 has been spent in the south for negro education.

San Francisco, Denver and Chicago all have trolley funeral services, and now Milwaukee is considering the proposition.

It is everywhere recognized that a soldier is best paid for doing his duty by a strip of ribbon or a peculiarly valueless medal. On the other hand, a badge in itself often spurs its owner to deeds of valor and honor. Harry von Trott, a young graduate of the Agricultural college of the University of Wisconsin, was among the passengers on a vessel recently wrecked off the coast of Mexico. The little Christian Endeavor pin was on his coat. He threw off his outer garments, and, fastening the pin in his underclothes, swam through the shark-infested water and surf-beaten rocks to bring relief to the imperiled passengers. A great crisis calls for energy, skill and self-sacrifice, and fortunately for the credit of this age it does not often call in vain.

Miss Frank E. Buttle offers to give to the New York public library a thousand menus of meals that have actually been served to her in nearly all the countries of the world on condition that the gift be sealed and stowed away for 50 years from the date of its receipt.

The case of a man at Brunswick, Md., is reported in which life persisted for 60 hours after the reception of several gunshot wounds, one of which, it was found on post-mortem examination, had perforated the heart and another the intestines.

Very young lambs are as like as peas in a pod to everything, except the noses of their mothers, says an agricultural authority. A hundred ewes at pasture, with lambs of the same size, will make no mistake about their children—that is, if the children have once been accepted as their own. Sometimes it happens that for no visible reason a ewe rejects her lamb, and cannot be induced to own it. If she has twins she may own one and reject the other.
