People who are engaged in the butter making business in Lake county would not be injured by the establishment of a creamery here. On the contrary they would be benefitted thereby, inasmuch as they would be enabled to sell all their milk and be relieved of the expense of butter making as well a good deal of hard work.

Sheriff Dunlap is in receipt of a letter from Joe Conard, Vienna, Ohio, in which the writer states that they are enjoying delightful winter weather back there. He also says that the people there have a great idea of Oregon; to their minds the very name denotes something of a "wild and woolly" nature. They imagine that Oregon is mostly inhabited by Indians and is a wild and dangerous country. Ohioans, those of the rural districts, should make a trip to Lakeview to dispel any such illusion. We can show them an ultra civilized country, and will promise them that the wild, bad Indians will do them no harm.

A powerful engine cannot be run with a weak boiler, and we can't keep up the strain of an active life with a weak stomach; neither can we stop the human machine to make repairs. If the stomach cannot digest enough food to keep the body strong, such a preparation as Kodol Dyspepsia Cure should be used. It digests what you eat and it simply can't help but do you good. "Oregon at the Pan-American."

The following resolution was unanimously adopted by Oregon's delegates to the National Educational Association at a regular meeting held in Portland January 25, 1901:

Resolved, That we, as Oregon's National Delegates to the National Educational Association, which convenes in Buffalo, June 10-13, during the Pan-American Exposition of 1901, do hereby pledge ourselves, individually and severally, to do all in our power toward having said National Educational Association meet in Portland, Oregon, during the Exposition of 1905, which is to be held to commemorate the Lewis and Clark Expedition; and we also pledge our hearty support to the Commission appointed by our State Executive to represent Oregon at the Pan-American Exposition, and request that every member of our State Association aid in seeing that our State and its resources be properly advertised and displayed at Buffalo during the entire Exposition.

Buying Cavalry Horses.

Messrs. W. Z. Moss and J. C. Dodson were in Lakeview last Thursday with a view to purchasing horses suitable for cavalry purposes. They have a government contract to furnish a large number of animals and will purchase all they can get that will answer the purpose of the government. Mr. Moss went north from here to make purchases, while Mr. Dodson returned to Ft. Bidwell to scour that country for animals. It is very evident that this section of Oregon will be completely cleaned up of good horses within a few months. The sale of good horses will continue to be active as long as they can be found, and the man who is in the business of raising that sort of stock will be successful.

The publisher of a newspaper has one thing to sell and one thing to rent. He has the newspaper to sell and the space in his columns to rent. Can any one inform us why he should be expected to give away either the one or the other? He can, if he so chooses, and he does, as a matter of fact, furnish a great deal of space rent free. But it does not follow that he ought to be expected to do so. It ought to be recognized as a contribution, exactly as would be the giving away of sugar or coffee by a grocer. But, strange to say, it is not looked upon in that light at all; and yet everybody knows that the existence of a newspaper depends upon the rent of its space and the sale of the paper, just the same as a merchant's success depends on selling his goods, instead of giving them away.—Albion (Ind.) Era.

Right Man, Right Place.

The wool growers of the United States are to be congratulated upon the election by the National Association, in convention at Salt Lake, Utah, January 19, of Hon. Francis E. Warren as president. It is clearly a case of the right man in the right place. Alike by virtue of his position as a Senator of the United States, and his marked characteristics of strong brain and vigorous practical common sense, President Warren is peculiarly qualified to represent the wool growing industry of this country. His eminent fitness to stand in that relation was emphatically demonstrated in his recent address at the annual banquet of the National Association of Wool Manufacturers. A man of that stamp is precisely the man needed, and the Salt Lake convention was fortunate in getting him.
