There is no better medicine for the babies than Chamberlain's Cough Rem-On account of the heavy storms which edy. Its pleasant taste and prompt and retarded the shipment of butter, the effectual cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious conse-quences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the parox-ysms of coughing, thus depriving that disease of all dangerous consequences.
