John Shook, a well-known Klamath stockman who was in Ashland this week, says that stock in his section of the state has come through the heavy winter thus far in first-class shape, and there will be no more than the usual percentage of loss to cattlemen, says the Ashland Tidings. Hundreds of Indian ponies, the property of the Klamath reservation Indians, will not survive the winter, however, having been caught on their ranges through the big marshes and elsewhere in the unusually heavy snow, where they could not be rescued, and where their owners could not get feed to them if they desired. As a consequence much of the old scrubby stock will be exterminated.

The wool market has not yet opened up, and unless the grower and buyer get nearer together it is not likely that any sales will be made before spring. There is about two cents difference between them at this time, 11½ cents per pound being about the price offered. However, wool brokers are quite willing to make a liberal cash advance on wool clips, and grant the grower the privilege of saying when the price suits him.—Heppner Gazette.
