STOCK NOTES HERE AND THERE

There is a heavy increase of lambs reported in Umatilla county. At the camps of Gullbird and Chapman, near Pendleton, an increase of 140 per cent of lambs to ewes was being secured when lambing was in full blast. Live-stock men of that section complain of the slowness of the growth of the grass, and say that the spring is fully one month behind that of 1900.

The 1901 wool clip at Pendleton is conceded by all buyers to be of unusually good quality. The wool market remains stagnant, offers being few, and prices not coming up to figures paid a year ago.

All the Lake county sheep are either in the shearing pens or heading for them. The clip will be heavy this season, and of good fibre.

Sheep-buyers are coming in numerously, all looking for something to turn up. Few sales are reported thus far, though several dealers are reported to be on the verge of accepting good strong offers. The buyers believe they will do an immense business at a moderate price this season, owing to the stagnant condition of the wool market and the possibility of the act passing soon for the leasing of the public domain. Should that act pass it would certainly be a death blow to the sheep industry of Lake county.

Wm. B. Barnes last week accepted the stock cattle he recently purchased from John O. George of Thomas Creek. He has contracted with H. R. Dunlap to run 200 head of his (Dunlap's) cattle this summer, and will bunch his own stock with the latter and take them to the Reservation. The cattle are already on the way to the summer grounds. One hundred head belonging to Jay Hotchkiss will also be taken with the same bunch. The Dunlap cattle wintered in Warner Valley, and were fed by Tom Ferris.
