"A Paying Enterprise."
The Chewaucan Post says that "a creamery in Lakeview would be a paying enterprise and afford considerable convenience to farmers, for nearly every farmer has several cows that he would milk that he now turns on the range, as the work of manufacturing butter by the old method cannot be accomplished profitably on all ranches, but if they can dispose of the milk in a crude form it will pay them to attend to it." Right you are, Brother Metzker, and Lakeview is going to have that creamery.

The Frisky Wolverine.
When he is shut up in a nice clean cage behind iron bars the wolverine is an interesting animal, but if the stories which come from about Long lake are true he does not improve upon closer acquaintance, says the Grand Rapids (Mich.) Herald. The people up in that region are having their troubles with the frisky animals, and would prefer to study their habits from the safe side of the cage. The wolverines in that section, so the story runs, have appeared in large numbers and are playing all sorts of tricks with the local inhabitants. Carcajon, as the Indians and trappers of the northern woods call the wolverine, is a sly fellow, and likes to enter their cabins, destroying or carrying away their household goods, but now he has come down to civilization and is making merry at the expense of the palefaces.

The wolverines about Long lake are not only killing the pigs and small animals, but have so terrorized the people in that vicinity that they dare not stir out after dark without being armed. This may be very interesting to animal lovers like Mr. Seton-Thompson, but the Long lake people fail to see where the fun comes in, and are a bit doubtful whether the term Wolverine, as applied to Michigan people, is in the nature of a compliment.

Kodol Dyspepsia Cure is the result of years of scientific research for something that would digest not only some elements of food but every kind. And it is the one remedy that will do it. Remarkable Cure of Rheumatism.
Kenna, Jackson Co., W. Va.
About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mrs. E. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without and assistance in any manner, and she has not had a similar attack since.—A. B. Parsons. For sale by Lee Beall, druggist.
