The Fall River Tidings says: "The cold wave we had last week extended to the southern end of Shasta county and greatly damaged and perhaps totally destroyed the fruit crop in the Millville, Stillwater, Anderson and Happy Valley sections." The climate is especially adapted to fruit culture, and some day, when a railroad reaches into Modoc, it will be a source of enormous wealth to its citizens.

HARRY J. STUDLEY.

A sad affair occurred in the family of Mr. and Mrs. S. J. Studley, at Cogswell Creek, near Lakeview on April 21st, when death claimed as a victim their eldest son Harry J. Studley, after an illness of about one week with pneumonia. Deceased was a native of Lake county, Oregon, having been born in the north end of Goose Lake Valley, near Lakeview nearly 22 years ago. The young man was subject to bronchial troubles, while at the same time he was strong and robust, and never feared the results of physical indiscretions. Harry Studley was an exemplary young man, the pride of loving parents. He had the good will and best wishes of all who knew him, and when the news of his death was announced it came as a shock to many people who knew and admired him.

Always thoughtful of his mother, and with a business eye for the future, he recently took out a policy with the New York Mutual life insurance company for \$5,000, naming his mother as beneficiary. The mother will fall heir to this amount, but worldly goods and chattels will not ease her aching heart and bring back her beloved boy.

Deceased was aged 21 years, 11 months and six days at the time of his death. The funeral was held from the Baptist Church in Lakeview last Monday, April 22d, and services were conducted by Rev. L. E. Henderson. The funeral was largely attended.

Big Chief Hatchetman W. O. W.

George E. Webber, Deputy Head Consul, W. O. W., arrived here last week to revive interest in the local Camp of Woodmen, which, by the way, has been for some time on the upward move. His second object was to establish a circle of Women of Woodcraft, an auxiliary to the order of Woodmen. The order here will now be placed on a more social plane. On Tuesday last twenty-six new applications were received in the Woodmen Camp, every one of which will probably pass muster. This will swell the membership of the local Woodmen Camp to about ninety, and it is expected that at least twenty-five more applications will be received before Mr. Webber retires from the field.

There have also been about thirty signatures to the charter membership of the circle of Women of Woodcraft, and the circle will be instituted before Mr. Webber leaves.

Next Saturday evening, April 27th, Mr. Webber will lecture on Woodcraft at Gunther Hall, in Lakeview, and the lecture will be free, accompanied by a brief musical program. The public is cordially invited to attend. Mr. Webber has a fine discourse on the subject, and all who attend will surely be entertained.
