Letter From Mitchell, the Creamery Man

ALTURAS, Cal., April 20, 1901.
THE EXAMINER, Lakeview, Oregon—As I promised to let you know of my movements after leaving Lakeview, I take this opportunity—the first since reaching Modoc—of informing you of how creamery work is progressing in Modoc county. I have been on the jump of late, making up for a few days' pleasant time spent with the good citizens of your town.

Last week I went to Adin and placed three small separators for patrons of the Adin Creamery. The machinery for the Alturas Creamery is expected to arrive this week from Terno, and we hope to be able to be in running order by the first week in May.

Vice-President T. F. Dunaway of the N. C. O. Railway, his son, W. A. Dunaway, Editor Bragg of the Reno Gazette, and Mr. Cole, one of the editorial staff of that paper, were in Alturas two days this week, and all but the latter gentleman went back to Terno Saturday. Mr. Cole will visit Surprise valley, and probably Lakeview, in the interest of the Gazette and to write up the country.

Mr. Dunaway is a progressive railroad man and a gentleman of the first rank. He expressed his regret that he was so pressed for time that he could not visit Goose Lake valley and Lakeview at this time, but stated that he would see your people on the 15th of May. The railroad manager casually remarked that creameries were great enterprises and always a success when properly managed.

I am sure the gentleman will be well satisfied with Lakeview and her enterprising citizens. Unlike most railroad managers, Mr. Dunaway is of the plain people, and the man in overalls and jumper receives as much consideration and courtesy at his hands as the "dressed up" man.

I will bid you au revoir until I reach Lakeview again—next month. With best wishes,
W. T. MITCHELL.

Number Cut No Figure.

One of the young, witty gentlemen who recently arrived from Ireland, and secured a position with William Harvey, the Summer Lake sheepman, to assist with the sheep during the lambing season, was asked by Mr. Harvey how many sheep he could lamb. This did not stagger his royal highness, for he promptly replied that he thought he could "lam about 5,000 if he had a good shelalah."—Chewaucan Post.

Thomason's Narrow Escape.

William Thomason of Silver Lake, who has been working on the ditch, was struck on the head by a flying rock from a blast Monday afternoon. A gash several inches long was cut just above his ear. The rock weighed about two pounds, and that his skull was not fractured is due to his wearing a very heavy felt hat.—Klamath Express.

Must Make Settlement.

I desire to inform those indebted to the old firm of Beall & Willey that their accounts are long since due and payable, and that an early settlement is earnestly desired that the business of the old firm may be settled forthwith. Those who know themselves to be indebted to the firm are notified that their accounts must be settled within thirty days from date or collections will be forced, as I must have my business in Lakeview straightened out at once. All bills should be paid to my former partner, Lee Beall. Respectfully,
J. M. WILEY,
Lakeview, Or., April 25, 1901. 16-4
