LAKEVIEW, OREGON, JUNE 8, 1901.

"THINK IT OVER."

We presume it would not be out of season to remark that no better time could be selected than right now, the beginning of summer, to build that flouring mill in Lakeview. The sooner it is in operation the better it will be for our farmers in the sale of their grain. With one man in control of the milling in this big valley, and he with a season's run of grain on hand, it appears that the farmers of Goose Lake valley will have little to say regarding the price of wheat this season. The Examiner considers it not only a self-protecting proposition among the farmers of this section, but a matter of actual necessity, that something be done, and that very quickly, in regard to the establishment of another mill in the Goose Lake valley. Why not build a mill in Lakeview and conduct it on the cooperative plan? Let merchant and farmer and capitalist join together in this much needed enterprise. If something is not done the granaries of the Goose Lake farmers will remain full for some time to come, as the indications are that a price will be offered for the 1901 grain crop that will not be accepted. It is to be hoped that the matter of establishing a grist-mill in Lakeview will be considered seriously without delay. By taking the proper steps such an enterprise can be in operation for the run of 1902. It is a public necessity and a matter that will not brook delay if our farmers desire to hold their own against loss, and make the growing of grain profitable.

Within a short time ample water power can be had right here in Lakeview for the purpose of turning the machinery of a mill—or, for that matter, the choice can be had between water and electricity. Never was there a time more opportune than the present for the establishment of a grist-mill here, where power can be had cheaply, and when such a demand for an enterprise of the class mentioned appears so necessary. The monopoly of a business that effects all the farmers should be met by them promptly.

Think it over, Mr. Farmer.

The Surprise Valley Record is hot after the farmers of that section to establish a creamery. The sticking point appears to be the milking of the cows. We hope no such spirit of laziness will manifest itself when the proposition of establishing a creamery in Goose Lake valley comes up for consideration.

Engene has a \$25,000 school bond popular loan, and investors are taking the bonds with warm enthusiasm. The bonds are to be sold at about 3 per cent. This might be a good idea to follow in Lakeview, and get rid of a big interest on the Town bonds.

Lowell Otis Reese is making page six of the Daily San Francisco Bulletin very attractive. The reading public will turn to that page seemingly as "a force of habit." The Bulletin, always up to the times with original ideas, has a happy faculty of doing and saying something out of the ordinary.

Populist Towne, having secured an option upon 300,000 acres of rich oil land, has decided to drop Bryanism. About time. When a man hasn't a thing but millions, it's pretty hard to be a calamity howler, says the Bulletin.

Paisley is said to have a gay lothario—or two of them. If what the gossips say is true the pretty little Chewaucan town is getting "warm," and the warmest weather has not yet arrived.

On the anniversary of Lord Roberts' entry into Johannesburg, May 29th, Gen. Dixon's forces went to battle with the Boers under General Delarey, and the former suffered a terrible defeat.

Who is going to make the first move toward the establishment of a grist-mill in Lakeview? The man who does will receive his reward, and he won't have to wait to get it in Heaven.

Klamathon, on the Southern Pacific line, has a case or two of small-pox and the hotel in which the disease is located has been quarantined.

The indications are that Goose Lake valley will turn out a mammoth crop of everything in the grain, fruit and vegetable line this season.

Even the pretty girl handkerchief-makers are flirting with the big strike of labor against capital.

We have many new customers each season coming to our establishment who tell us they always understood that we handled good quality of goods. Our reputation with our customers is not made by any particular line of goods we have, but by the general excellence of every article in our stock. We acknowledge we carry good quality of goods. This refers to our cheaper goods in just the same degree as to those of the very best quality.

In ordering our goods we give just as particular attention to the durability, the substantial make and the superior quality of the low priced goods as we do to the medium and better grades, but our assortment is mainly confined to the medium and better grades.

The strength of our lines is apparent when you look at our stock, and for Spring and Summer we venture to assert that there is not another stock of goods in the country that is equal to ours in its wonderful variety, in its great range of price, in its particular style of everything that we show.

We solicit the business of the people of Southeastern Oregon and can readily convince them that we are the best house to trade with in this entire region.

... BAILEY & MASSINGILL ...

Gone to Seattle.

Ed. J. Armstrong, the contractor, started in company with his mother Mrs. McKinsey and half brother Bud McKinsey, last Monday, enroute to Seattle by team. They expect to make the trip a summer outing, going via Silver Lake and Prineville to The Dalles. Mr. Armstrong leaves in Lakeview many friends who wish him good fortune wherever he goes. He did most of the contract work in building up New Lakeview after the fire of a year ago, and his good work stands as a monument to his ability as a brick mason and a contractor. The Examiner can cheerfully recommend Ed. Armstrong to the people of Seattle or any other place as a first-class workman, trustworthy contractor, and reliable man.

To Be the Best.

There will probably be more horses to enter the contests at the July meeting in Lakeview than ever before. From everywhere we note that race animals are in training for the Lakeview races. The Alturas Plaindealer says of the meeting:

"Johnny Pulse, of Susanville, arrived in Alturas Monday with the celebrated race horse "Grover C." The animal has been placed in training for the Lakeview races in July. Grover C. has been victor in many a hard-contested field, and two years ago defeated Frank Cain's horse Belerica at Reno. The meeting at Lakeview ought to be the best ever held in the mountains.

City Market Cold Storage.

E. H. Day, proprietor of the City Meat Market, has a fine cold storage plant now in his market. The temperature at 7 a. m. in the dark room is 32 degrees. By this system meats can be kept in perfect condition for thirty days or more, and the storage room is kept full of fine meats. The storage plant is constructed upon a plan originated by J. G. Likens, the cutter in the City Market. The top is 9 feet square and is covered with ice 36 inches thick. Mr. Day has just purchased another band of fine young beef, and will have fine meats throughout the summer months.

They Are Fakers.

There is a moving picture outfit traveling under the name of the Summers & Wagner Consolidated Show Company that has gone south from Lakeview, probably to bilk others as they did the people of Lakeview. Their "pictures moved" very rapidly—almost as quickly as the fakers who run the machine. The Examiner desires to notify the people and the press down the line that these fellows are bilks of the first class. See that the Summers & Wagner Consolidated Show Company receive the marble heart and icy hand. Pass this along, brethren of the press.

Burns had a big horse sale last week, and will continue to hold such public auction sales at frequent intervals.
