LAKEVIEW, OREGON, AUG. 1, 1901.

Earl Russell, of England, has been found guilty of bigamy in a trial by his peers in the House of Lords. How would that work for United States senators?

The Populist party had almost disappeared from the political firmament, but the prolonged drought and consequent crop failures in Kansas and Missouri may render it visible again in that part of the country.

It is now claimed that George Washington, "The Father of his Empire," was jilted by two simpering maids, but was greedily grasped by the widow, Martha Curtis. If this be true, it is only one of many tributes to the insight of young widows.

It is cheering to know that there are some laws which actually accomplish the object intended in their passage, says an exchange. The number of Chinese in this country has declined over 17,000 in the last ten years. Let the good work go on.

An Eastern Oregon exchange hits the Salem Journal in a vital spot when it says: "The Salem Journal implores the politicians to give it something that will compel it to be honest. The Salem Journal is a political son-of-a-gun," says the Eugene Register.

In a debate in the house of lords last week, Lord Wolsey paid the United States army a very high compliment. He said "the U. S. army is the finest army in the world of its size." Ten years ago a statement of this character would have passed for fine satire and superlative sarcasm. Today it is but plain unvarnished truth.

The hay crop in Lake county is turning out considerably better than at first expected, and in some places it is even better than it was last year. When a little dry, hot weather comes on everybody gets scared and says the crops are all ruined, but they always give themselves the benefit of the doubt, and are not half so badly hurt as they let on to be.

The dispatches tell of a tramp who broke into a house in Poughkeepsie the other day and took a bath. The city authorities pronounced him demented. In Portland a few weeks ago a tramp scrubbed a porch for his dinner, and asked for 15 cents to get his laundry. The Weary Willy kingdom is evidently bordering on the dude stage of mental deterioration.

There will no doubt be considerable complaint over the state because of change in school books, requiring parents to buy new ones this fall. The man with the large family and the small salary will have to begin to rustle in order to allow his children to attend school this winter. It does look as though some standard could be found that would fit for all time and save this needless expense. But something had to be done to the American Book Company, their graft was too big.

A well known traveling man who for years has made Willamette valley towns is passionately fond of honey, and the proprietor always has some on hand for him. On one trip the traveling man took his wife along, and as he approached this particular town he mentioned to her that he was getting to a place where he would have honey. When the pair were sitting at the supper table no honey appeared, and the knight of commerce said sharply to the head waiter: "When is my honey?" The waiter smiled and said: "You mean the little black-eyed one? She don't work here now."

John McDonald, a Kansas journalist who is touring Scotland, says in a letter to one of the papers of the Sunflower State that he recently went into a store in a little Highland town and inspected the goods displayed for sale, finding among them the following American products: Corn, flour, canned beef, canned peaches, canned apricots, canned peans, soap, rolled oats, washboards, churns, cheese, hams, salmon, apples, forks, hoes, axes, hammers, saws, joiner's tools, braces and bits. "This partial list of things used in a Scotch mountain village," says Mr. McDonald, "will give some idea of the immense trade between the United States and Great Britain."

RESERVE TO OPEN FOR SETTLEMENT

Two Townships west of Silver Lake to Open Soon.

Through the influence and upon the application of the Little Deschutes Irrigation Co., of Rosland, Crook Co., two townships within the Cascade forest reserve, will be restored to the public domain on Sept. 30th, next. One township is in Crook and the other in Klamath and are nearly west of Silver Lake this county. This company has taken up and own about 13 sections of land in this vicinity and have taken out a large irrigation ditch on the Deschutes river which will go directly through these two townships to be shortly opened to settlement. The land in that country is said to be very fine and by putting water up, on it there is no mistaking what the result will be.

The following notice was received at the Lakeview Land Office last Thursday, copies of which were sent to one paper in each of the counties Crook and Klamath for publication:

Dept. of the Interior, Gen. Land Office Wash. D. C. July 15, 1901. Notice is hereby given of the following Executive order, restoring certain tracts in the Cascade Range Forest Reserve, Oregon, to the public domain: Executive Mansion, June 29, 1901. In accordance with the provision of the act of Congress approved June 4, 1897, and by virtue of authority thereby given, and on the recommendation of the Secretary of the Interior, it is hereby ordered that Tp 22 S R 9 E, and Tp 23 S R 9 E, W M Or., within the limits of the Cascade Range Forest Reserve be restored to the public domain after 60 days notice hereof, and by publication as required by law, these tracts having been found better adapted to agricultural than forest purposes. WM. MCKINLEY.

The above described lands will be restored to the public domain Sept. 30, 1901, then becoming subject to settlement and entry at the U. S. Land Office, Lakeview, Oregon. Binger Hermann, Commissioner.

Fine Home for Sale.

A new house, 6 rooms, lot 100x60, fine water right out of the mountain, elevated ground, perfect drainage, fine locality, near public school building, good sidewalks, good out buildings, house recently painted, surrounded by new fence, insurance on property paid for over two years, now rents for \$150 per year. For sale at a bargain. Call early at The Examiner office—won't be on the market long. 174

A Pitless Prune.

Adding to his already long list of horticultural triumphs, Luther Burbank of Santa Rosa has produced a prune without a pit. Years of experiment, years of hard work on the part of the Santa Rosa wizard were required to perfect this latest marvel. The hybrid is understood to be a cross between a plum and a prune.

This discovery will create a sensation among fruit driers and fruit producers the world over. The pit of the ordinary prune has been a great drawback to the popular consumption of the delicious fruit. Burbank's creation has no pit, but a tiny seed that is edible and in no way requires removal.

Lumber Prices Up.

Notice is hereby given that from this date all orders for lumber will be advanced \$1 per 1000. This is done on account of the raise in the price of hay, which makes the cost of producing lumber greater. HAWKINS & RHINEHART. Lakeview, August 1, 1901. 30

\$3 Per Head Better.

In making mention of the purchase of 100 head cattle by Louis Gerber from Jim Small of Silver Lake, The Examiner said that the price was \$30 per head. The cattle were two and three-year-old steers and fat heifers, and we were informed by a prominent stock man that the price was \$33 per head.

Lime For Sale.

Parties wanting lime can have it in any quantities from the first kiln burned. Call at the residence of E. H. Loftus, Lakeview, and leave your orders. Lime supplied from the kiln 4 miles north of town. 284 LOFTUS & DALRYMPLE.

Offers unexcelled facilities for learning the Celebrated Perin Shorthand by mail. This method employs neither shading, position nor arbitrary contractions; is the simplest, most legible, and rapid shorthand in use, and the only method that can be successfully learned by mail. Send for free trial lesson and catalogue. Commercial Building, Washington, corner Second. 12-11
