PRIMARY LAW.

Oregon Supreme Court Decides That it is Valid and Just Law

The primary law which was passed at the last session of the legislature has just been pronounced valid by the Supreme court. The Oregonian in speaking of it editorially says:

"It is settled, therefore, that we may have—and we do have—a law for regulation and control of primary elections. This gives the people of Oregon a chance, for the first time, of making nominations. No clique, junta or party committee, pretending to the sanctity of party regularity, controlling the whole machinery of party primaries and conventions, and denying all rights of contest or opposition, can, henceforward, have full sway. All the members of the party—of each party—will not have a chance. This is a great change and reform, even though the law may be imperfect in some of its details.

The opinion of the Supreme court is so important that The Oregonian prints it entire. It is the emancipation of the people from party bosses. It will be scarcely worth while, now, for any set of men to organize a "gang" and keep a "machine." Primaries and conventions may not be worked so smoothly hereafter; but no ticket made up in the office of a political boss can be rushed through a primary and convention. That force is over."

The primary law applies only to the City of Portland, being applicable only to cities of 10,000 or more inhabitants.

It is made the duty of the County Clerk to designate a day to be known as primary day, which shall be at least 60 days before the general election.

The Democratic and Republican primaries shall be held at the same time.

No nominations made by any convention of delegates shall be printed on the official ballot for use in the general election unless the delegates are selected at a primary election held in accordance with the act, but this does not preclude nominations by assemblages of electors or individual electors.

Not less than seven days before the primary election the managing committees of political parties shall publish notice of the proposed convention, the number of delegates and apportionment.

Four days before the primary election the managing committees shall file with the County Clerk a list of delegates to the convention, which shall be known as the regular ticket. Ten members of a political party in any ward or precinct may file an independent ticket. Independent tickets shall be numbered consecutively when there are more than one, or several.

The ballots shall be the same as the ballots now used in a general election, and shall be voted in the same way, by marking "X" opposite the name voted for. There shall be a separate ballot for each party.

The judges and clerks appointed in January to serve at the general election shall serve at the primary.

The polls shall be open at 8 o'clock A. M. and close at 6 o'clock P. M., and the election shall be conducted in all respects the same as a general election.

The poll books shall be the same, also the tally sheets, as in a general election. There shall be a ballot box for each party, and the precinct registers shall be provided by the county.
