

# PAISLEY NEWS

From the POST  
The heaviest rain fell last week that was ever known here. Geo. Conn says the river was the highest he ever saw it this time of the year.

Most of the papers that speak of the company that located Summer Lake and Albert Lakes all call it the "Oregon Potash Company." This is a misprint, however, as it is incorporated as the Nevada Potash Company.

Les Vanderpool and Elmer Claypool who drove the McCullough sheep from Crook county to Reno, passed through Paisley yesterday on their return to Prineville. The boys have had quite a trip, having been out about eight months.

The mule buyers Terry and Stewart went to the French-Glen ranch to look at 1000 head of mules that company was reported to have in the field, but when they arrived there the mules were not in sight. They then went to the Cecil ranch on Silver Creek to look at 800 mules belonging to Mr. Cecil, but the price was too high, so no purchase was made there. Mr. Terry said they had a hard trip for nothing.

## SPEED IS FAR TOO LOW.

Trains on the Siberian Railway Do Not Make More Than Nine Miles an Hour.

Traffic between Moscow and Port Arthur over the Siberian railway will be opened over the Trans-Siberian railway within a very few weeks, but the results seem likely to prove disappointing. According to the latest calculation the journey from Moscow to Port Arthur will take 28 days, even in favorable circumstances. Indeed, according to the Odessa Novosti, during practically half the year the railway administration refuses to guarantee arrival in Port Arthur from Moscow under a month and a half. People here are asking what has become of the promise of a seven days' trip from Moscow to the Asiatic terminus of the Siberian railway, in saloons rivaling in comfort and luxury even the trains of the continent, says a London exchange.

The average speed of the Siberian passenger trains was to be about 35 miles an hour at least. As a matter of fact, an average inclusive speed of from seven to nine miles an hour is the most the administration of the railway is prepared to guarantee. The difference between 35 miles an hour and nine is one which is puzzling Russians immensely, even when every allowance is made for difficulties during a portion of the year owing to storms on Lal Balkal and the vagaries of the ice on the Shilka and Amur. The opinion is general here that the utility—commercial, military or otherwise—of the gigantic undertaking sponsored by the Russian government and paid for with borrowed money will scarcely prove commensurate with its colossal proportions.

### A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation," were the startling words uttered by Mrs. I. B. Hunt of Lane Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful Stomach Liver and Kidney remedy. Cures Dyspepsia, Loss of Appetite, Try it. Only 50 cts. Guaranteed. For sale by Lee Beall, druggist.

### Hit by the Record.

Lawyer (examining accused pickpocket, testifying in his own behalf)—You deny this special charge, and yet admit that you have committed similar offenses. Perhaps you'll be good enough to tell the court just how long you've been in this business?

Pickpocket (nonchalantly)—Oh, not more than two or three months.

Lawyer—Only two or three months, eh? How do you expect the court to believe that statement in view of the fact that it has had positive testimony to the effect that you are an expert?

Pickpocket (stiffly)—Oh, well, you must remember that I had the benefit of a three years' previous practice in your profession.—Richmond Dispatch.

### Building in Stockholm, Sweden.

Only two-thirds of the area of the lot can be covered in Stockholm, Sweden, except on street corners, where three-fourths is allowed. The remainder of the lot must be reserved for courts, for light and ventilation. All chimney flues must be 12 or 15 inches and must be swept once a month from October to April by official chimney sweepers.—Chicago Inter Ocean.

### Members of the congregation of St. John's Episcopal church in Hoboken, N. J., are in a state of turmoil over the fact that their rector, Rev. David B. Matthews, acted as a referee at a boxing match the other night. Under the auspices of the St. John's cadets, an organization connected with the church, a minstrel show was given that evening, and the last number on the programme was a boxing bout between Charles Rogers and August Tierney, two members of the cadets. The rector was referee, and the "fight" was an exceedingly warm one. It was of three rounds' duration, and both youngsters were pretty well punished. The minister showed a familiarity with the tactics of the ring that amazed some of the staid members of the congregation.

### Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse.
