WOOL OUTLOOK PLEASING.

The Commercial Bulletin of Boston, one of the most reliable commercial publications in the United States, gives a very encouraging outlook to the wool business, and intimates that that product is to be taken by the buyer in future sales at an advanced price. The Commercial Bulletin says:

There is a continuance of firmness in the wool market, and Boston dealers are talking more confidently of the possibilities of prices. The demand has been so very steady of late that it has given great encouragement to holders. Nearly all had looked for some falling off, but the disposition of buyers is still to buy, and there is at present no indication that the excellent business, which has been put through in every week since the big boom in the closing week of October, is not to be kept up. In addition to this good consumptive demand the speculative fever is growing. It has not assumed as yet the dimensions of an epidemic, but there has been a good deal bought during the past fortnight to be held for a rise, and not only B super pulled wools, as was noticed last week, but other grades, which seemed to the speculator to be cheap and good for a nice profit later on.

In prices the tendency is distinctly upward. Already some advance has been secured and it is much easier to sell at old prices than a few weeks ago.

The good buying of the past seven weeks has restricted the offerings of choice wool and the supply of such is not nearly as heavy as it was at the opening of the last quarter of the year. Buyers have recently paid the full prices of choice selections for wool that they would not have considered early in the fall. Dealers look confidently to the new year for a very active market and in the opinion of a good many of them it will be impossible to keep prices down. Seldom at the close of a year has there been less pressure to sell than now. Wool is considered good property as at present quoted here. It cannot be laid down from abroad in competition to any extent. The West is cleaned of desirable stock and what is left is held above the parity of Eastern seaboard values.

The mills are very busy. Without exception reports from them are of the most encouraging character. Not only the large corporations but the small mills are doing a big business, with machinery employed to its full capacity. More woolen goods are not only being made than ever before, but are being sold. It is this splendid consumption that makes the present situation so decidedly healthy. The future, too, is full of promise. The only doubt seems to be in the ability of the mills to supply the demand. Not a few producers have so many orders on their books that they can give no definite time for the opening of new goods. Prices on both men's and women's goods are on a conservative basis, and there is good ground for the expectation of a solid advance later on.

THE WEEK AT SCHOOL

Semi-Annual Examinations, Followed by Exercises and Gay Christmas Festivities.

The semi-annual public school Examinations began on Monday, the 16th inst. and continued until the following Friday afternoon. The general result was good, only those failing that had been ill during the term, or those that had not applied themselves to their work sufficiently.

Friday afternoon the majority of the students of the school entered the room occupied by the 3d and 4th grades where the teacher Miss West had prepared and decorated a beautiful Christmas tree, which contained gifts for the students and their teacher. Miss West's pupils gave her some very handsome presents. A fine program was rendered by the pupils in this department.

Friday evening, the 8th and 9th grades erected a platform in the double department up stairs in the school building. On Saturday morning Miss Hall and Miss Johnson, with assistants, began decorating the apartments. Instead of a Christmas tree they had a representation of the Ferris wheel, which was decorated with bunting, evergreens, flags, tinsel and popcorn. The presents on the wheel were very fine, especially the beautiful dolls and the gifts from pupils to teachers. The exercises in the departments began Monday afternoon at 2 o'clock, when an excellent program was presented to the many visitors. The presents were distributed by children dressed as Santas of other lands.

After the exercises were completed the rooms were cleared and a Christmas tree was erected by the members of the 8th grade literary club, and the pupils of the 9th and 10th grades. The entertainment began at 7:45 p. m. Monday. Miss Ethel McKee presided during the meeting. Here was another splendid program which was thoroughly enjoyed by many visitors present.

[As The Examiner was unable to get all the programs it was decided to omit those that were sent in. To say the least, the week at the public school building was one of high class entertainment.—Ed.]

Will Be Considered in January.

Notices have been posted to the effect that a petition was filed in the office of the County Superintendent of Schools of Lake county on December 19, 1901, asking for a division of school district No. 7, of this county, and that said petition will be considered by the district boundary board of Lake county at the regular meeting of the county court in January, 1902. This refers to that part of district 7 lying between H. R. Hervford's place and Crooked Creek, of which there was much controversy several weeks ago. We understand that petitioners have a big majority of the voters of the district to their petition. No remonstrance has thus far been filed.

Admiral Sampson's Objections.

The objection of Admiral Sampson to that portion of Admiral Dewey's report of the Schley Court of Inquiry, in which he says Admiral Schley was in command at the battle of Santiago, and entitled to the credit of the victory, was filed with Secretary Long on the 20th inst. Sampson says: "Commodore Schley was not in command at that battle. Dewey is wrong. I was in command."

Last Sunday was a disastrous day for the lovers of skating. Large crowds went to Goose Lake, but the day was too mild to enjoy the sport. It was at a time when the ice was breaking and several of the best skaters who ventured far out found air holes in the ice much to their discomfort. George H. Ayers is recognized as an excellent skater, and he was one of the first to find a dreaded air hole. Of course he went through the ice and was drenched to his waist. Jim Maxwell also found a soft place, but in shallow water. Several others were slightly dampened.

Wm. Jennings and family are now located at Wilbur, Washington. Mrs. Jennings has written back to have The Examiner forwarded to that address.

Readers of The Examiner who find it not up to the standard this week will please remember that newspaper people are but human and like to have a few hours off on Christmas day as well as other people.

Hundreds of gifts suitable for New Year's are left at The Monogram. Inspect the articles and ask for prices. A New Year's gift is just as appropriate as a Christmas gift.

Both branches of Congress have adjourned until January 6th. It was agreed in the House before adjournment that on January 7th the Nicaragua canal bill would be taken up for consideration, and continued thereafter until disposed of.

The Examiner understands that Mr. Robt. Goss and Miss Sallie Chastain were united in marriage at Bonanza last Sunday. The groom is an industrious and affable young man, and it is said his bride is in every way worthy of him.

Everything but whiskey at The Excelsior. 51-tf

When you visit Bealls ask him to show you the Rosemere.

We understand that the public school teachers in Lakeview were kindly remembered by their pupils who presented them with handsome Christmas gifts. This is a delightful way of expressing love and admiration of pupil for teacher.

During the exercises at the school house last Monday afternoon, the bunting on the Ferris Wheel, caught fire and for a brief time there was great alarm. The flames were quickly put out and in a few moments order was completely restored.

A full line of men's furnishings at The Excelsior.

Ladies dress goods of every description, at The Excelsior. 51-tf

Bonanza is up-to-date. It is under city government, has big irrigation enterprises on foot, and gave a big mask ball last night. Plush is also in the swim, as well as Paisley, both towns having had a big crowd of merry maskers last evening.

Mrs. Edna F. Moore and her daughter Mrs. W. Z. Moss, and Edna Moss left last Friday for Reno where they will take passage on the Central Pacific for Ellendale, Oklahoma. The ladies will be absent a couple of months. W. Z. Moss took them to Terno.
