Pansley Post: The sadness that prevailed in our neighbor city over the series of tragedies that occurred near the close of the year 1901 was profound, and Lakeview, your sympathizing friends in the north greatly deplore your sad misfortune, and sincerely hope the closing of the year 1902 will not be dealt with so cruelly by the hand of fate.

R. B. Orr, of Central Point, experimented to some extent this year in growing tobacco. He brought some in Monday which he sold to the Palm-Whitman Co. While the quality is not up to the eastern grades it is thought that by profiting by the experimental tests made that a fairly good article can be produced. Mr. Orr will plant a couple of acres of ground to tobacco next spring.—Medford Mail.

Give the girls the best of educations. Let them have college educations if possible. The way to get at the boys of the future is by means of the girls who are to be their mothers. Too much attention has been given to the boys and not enough to the girls. If the boys of a college woman are capable of receiving a college education they stand the best chance of getting it. The best side of the house is the mother's side of it. If the girls are put forward, the boys will get in the neighborhood.

See Schminck & Son for gents furnishing goods. 2-2

Don't drink Jesse Moore Whiskey unless you want the best. Geo Jannerthal Agent.

Harry Davidson left Montague last week, in charge of 200 mules purchased by agents of the British Government for South Africa, and will also go on the transport taking them to San Francisco, as an employe in taking care of them, says the Yreka Journal. The boys taking care of stock, are well satisfied to go for the British Government, as they are sure of getting full pay, but the boys who went to China for the German Government failed to get full pay, although every effort has been made to secure their wages. The German Government probably refuses to pay more than the rates in Germany, thinking the rest of the world ought to work as cheap.—Yreka Journal.

There is nothing more delightful than a drink of good whiskey—and Jesse Moore is good whiskey. For sale by Geo Jannerthal.

The "Palace" is as popular as ever. Whorton & Smith have a host of friends and their resort is a meeting place. The Palace has the reputation of dealing out the best in every thing. The Palace billiard room has the finest billiard and pool table in town. 2-1f

The Redding Free Press says that a Company of St. Louis, Michigan and New York railroad and mining capitalists has taken up the building of a railroad from the main line to Fall River Mills, has run preliminary lines, has sent an engineer into the field, and has secured deeds to a right of way conditional upon their beginning actual construction within sixty days. The projectors are men high in the financial world, they have no stock to sell, and there is every evidence that they mean business. To build and equip the sixty miles of railroad will cost near a million dollars, yet the road itself is but one of the enterprises which this company proposes to undertake in Shasta County.

Jesse Moore Whiskies are famous the world over for purity and flavor as well as for all the other qualities that makes good whiskey. At Jannerthal's.

Chewaucan Mill Output.

C. S. Benefiel gives the Post some figures on the output of the Chewaucan Lumber Co. for the past year. He says the mill has cut 350,000 feet of lumber this season, 30,000 feet of which is still on the yard and 20,000 feet has been used in buildings about the mill, making the sales about 300,000 feet. The lumber will average close to \$14 per M. counting clear lumber. They have also made about 225,000 shingles, 20 per cent of which were second-grade. The shingles averaged \$3 per M. They have yet in the timber about 200 logs out of the 1000 cut last winter, and it is their aim to prepare for a big run next season.

A MARRIAGE RECORD.

Instance at Time of Alexander the Great When Over 10,000 Couples Were Wedded.

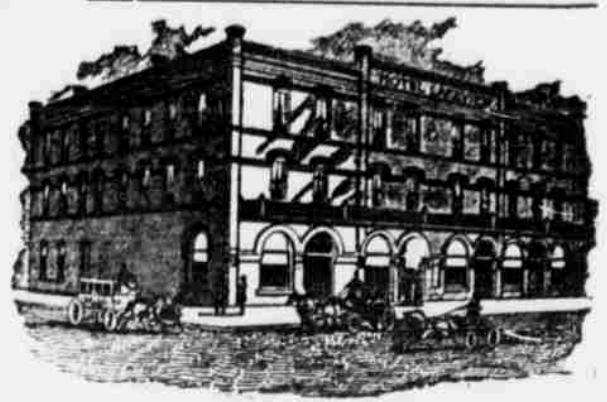

The greatest mass wedding on record took place at the time of Alexander the Great. Ten thousand one hundred and one men were married to 10,101 women at one time on that memorable occasion. It was after the conquest of Persia that Alexander, believing intermarriage between the victors and the vanquished to be the best method of securing his supremacy in the conquered country, decreed that 100 of his chief officers and 10,000 of his Greek soldiers should be married at the same time with a corresponding number of Persian women. The mass wedding was celebrated on a plain near the city of Susa.

A vast pavilion was erected in which Alexander the Great himself was to marry Statira, the beautiful daughter of Darius. It was hung with rich tissues and adorned with gold and precious stones. Adjoining the pavilion were gorgeous quarters for the hundred officers, and in an inclosed court seats were prepared for the 10,000 soldier bridegrooms and their prospective brides. The ceremony was exceedingly simple. After all the grooms and brides were assembled and in their proper places Alexander offered a libation to the gods and then kissed Statira as his wife. His example was imitated by all the other grooms with their respective brides, and after the ceremony was thus completed the great wedding feast was spread for the thousands.
