A number of Lake county sheepmen are moving their bands from the desert back toward the mountains to procure water.

Klamath county is coming rapidly to the fore by means of irrigation. When all the irrigating enterprises in that county are put into operation, Klamath will become a garden spot.

The Nicaragua canal bill passed the House on the 9th inst. by practically a unanimous vote. Only 2 members out of 310 voted against it, and these lonely members were Fletcher (R.) of Minnesota, and Lassiter (D.) of Virginia.

Klamath Republican:—Last week the Lakeview Examiner entered its thirty-third year. There are no better weekly papers in Oregon than the Examiner, and from the liberal patronage it receives, we conclude the efforts of its enterprising editors are appreciated.

Senator J. N. Williamson has publicly announced his intention to make a fight for Congress in the second district, and will seek the nomination against Mr. Moody. The Examiner regrets to see Mr. Williamson leave this district, but hopes he will be nominated and elected.

Arthur Langell and O. T. Anderson passed through Paisley last Friday going to Summer and Silver Lake valleys to pick up what horses available in that section suitable for artillery horses. We understand Mr. Langell is buying for Geo. Bayley, of Modoc county.—Post.

Yreka Journal:—The Lake County Examiner commenced a new volume with the new year and is one of our most valued exchanges. Beach & Metcalf spare no effort to give all the local and general news to the fullest extent, and deserve the very liberal patronage extended.

Mrs. O. A. Hastings, who was adjudged insane by authorities in Alturas, and committed to the asylum at Napa, Cal., a few months ago, is pronounced cured by the asylum physician, and her husband has gone to Napa to escort her to her home at New Pine Creek. The numerous friends of the family will rejoice to learn that the good woman is restored to health.

D. C. Berry, a prominent stockman of Davis Creek and a member of the grand jury, was circulating a petition this week asking the board of supervisors to amend ordinance No. 10. The people of his section ask that any one starting a saloon at Davis Creek, must reside within two miles of that place.—New Era.

Oregon counties that have not yet sold delinquent property under the law passed at the last session of the legislature should see to it that tax deeds are obtained from the sheriff before the sale takes place. The law is defective in some respects, and some counties have found law suits on their hands because they had no tax deeds from the sheriff.

O the doctor he was sad
And the doctor he was mad,
And the doctor rigged and tore and roared, alack!
Some rogue had gone and stuck
In the doctor's sock a duck
That every time he touched it murmured: "Quack! Quack! Quack!"

In the United States Circuit Court of Appeals on January 6th Judge Morrow sentenced Judge Noyes to pay a fine of \$1000 in the Cape Nome conspiracy case. United States District Attorney Woods was sentenced to four months' imprisonment and Assistant United States District Attorney Frost was sentenced to 12 months' imprisonment.

Lakeview has a full-sized football team, with Lee Beall, formerly of the Corvallis team, as coach. A practice game was had last Sunday, when the players were introduced to the fine points and tricks of the game. New Pine Creek also has a team and it is expected that Lakeview will go down next Sunday and "wipe the ground" with the state liners.

Frightened by the preparations of the Butter Creek stockmen to ship a train-load of steers to the Chicago market, where they asserted they could get better money even after paying additional freight rates than the Coast buyers would pay, the latter have concluded to make an advance rather than see thousands of fat cattle leave for the East. Portland and Seattle representative buyers now offer about \$1.25 per hundred-weight, a figure equal to what could be realized net if the steers were shipped to Chicago. Consequently the Butter Creek feeders who intend to ship to Chicago have given up the idea and will sell to Coast buyers as long as they stay up on prices. When they fall, Chicago will be made the objective point again.

The Woodmen Ball.

The next great social event will be the annual ball to be given by the Woodmen of Lakeview on Friday evening, Feb. 21st. This event takes place on Washington's birthday, but this year the memorable day falls on Saturday, and the Woodmen have placed the date of their ball on Friday so that it can be an all-night affair. Committees have been appointed to insure the complete social success of this ball, and those who attend Barry opera house on that occasion will enter a great forest of evergreen trees, and be greeted with sweet strains of music from the forest. The Woodmen and Circle of Woodcraft have an orchestra of their own now, and the music will be excellent. The supper promises to be the best ever gotten up by the Woodcraft people, and those who attended their last grand ball will remember the supper on that occasion. As a social event the Woodmen ball promises to eclipse anything of the kind given in Lakeview for years.

Want Tri-Weekly Service.

The people of Plush and vicinity will petition the postal department to have the mail line from Lakeview to Plush changed from a semi-weekly to a tri-weekly service. In requesting this change the people of that locality are not asking anything unreasonable as the district is a large one and the population is increasing. The change would also prove a great convenience to the business men of Lakeview. The Examiner hopes that the department will grant the prayer of petitioners speedily. The Examiner got up the first petition for the first mail service between Lakeview and Plush years ago.

Star Route Schemers at Work.

It has come to light, according to a Washington correspondent, that the star route schemers are at work to get around the new order of the postoffice department. The department anticipates some little trouble over contracts for carrying the mails on star routes in Western states. Under the new order bidders are required to be residents along the routes on which they submit proposals, the object of this ruling being to bar out the speculative bidders, who have worked so much damage to the service in the past. Now it is discovered that these scheming speculative bidders have induced different parties living on the several routes to submit bids upon terms which they indicate, promising to furnish the necessary bond called for by the department. The actual bidders will be held responsible for the service rendered and the speculators will sneak off and leave their dupes to suffer all loss that may be incurred in performing the required service. Local men will be pinched if they accept the overtures of these robbing speculators. Perhaps after four years of this work local men will wake up to the fact that dealings with speculative bidders on mail routes result only to the benefit of the speculators.

Have Their War Paint On.

The Burns Times-Herald says: The Lake County Examiner in its last issue gives the stockmen in Lake county a "jacking up" on account of their lack of interest in opposing the land leasing scheme. That's right brother, keep at 'em. Our stockmen are all awake and have their "war paint" on. It is not only the stockmen in this county that are out with their "tomahawks." This week we sent a petition to the Portland Chamber of Commerce signed by every business firm in Burns, with the exception of one, asking that body to use its influence in defeating the proposed bill.

Interest Will Cease.

Notice is hereby given that the following warrants against Lake county are now redeemable and money is in the hands of Treasurer of Lake county to pay the same: All warrants protested prior to and including October 14, 1898. Interest on said warrants will cease on this date, January 16, 1902. LEE BEALL, County Treasurer. Dated, Lakeview, Oregon January 16 1902. 2-2t
