

# Lake County Examiner

VOL. XXIII.

LAKEVIEW, LAKE COUNTY, OREGON, THURSDAY, FEB. 13, 1902.

NO. 6.

## WOOL MEN AT HELENA

They Give Statistician North the Marble Heart in a Resolution Addressed to President.

On February 9th the Pacific Northwest Wool Grower Association, in a resolution addressed to President Roosevelt and Congress, attacked S. N. D. North, statistician of the department of manufactures under the Census Bureau. Mr. North, as secretary of the National Association of Wool Manufacturers, is leading the fight at Washington against the tariff on wool. The resolutions state that:

"The Pacific Northwest Wool Growers' Association is of the opinion that as a public official, the activity of Mr. S. N. D. North in antagonizing the desires of the wool growers and stockmen of the country is taking advantage of his official position, and that his personal opinion is in bad taste, to say the least, considering the fact that he is, to a certain extent, the servant of the people whose manifest desire he is now seeking to circumvent."

The association also unanimously passed resolutions endorsing the crossbreed pure wool bill, now pending before Congress.

The association endorsed the bill providing a classified census of livestock every five years, asked Congress to authorize Federal inspectors to inspect sheep at any point and to provide severe penalties for the violation of inspection laws.

W. J. Skinner, manager of the International Livestock Exposition at Chicago, was endorsed for the position of manager of the Livestock Show of the St. Louis Exposition, and F. M. Malone of Miles City, Mont., for superintendent of the same department.

### Sure Cure For Smallpox.

Mrs. Josie Miller of Lakeview handed in to The Examiner this week the following article which may prove of some use to the public:

The following smallpox remedy was given to the public by a correspondent of the Stockton (Cal.) Herald, who says: "I herewith append a recipe which has been used, to my knowledge, in hundreds of cases. It will prevent or cure smallpox, though the pittings are filling. It will also cure scarlet fever. Here is the recipe as I have used it to cure smallpox. When learned physicians said the patient must die, it cured; Sulphate of zinc, one grain; foxglove (digitalis), one grain; half a teaspoonful of sugar. Mix with two tablespoonfuls of water. When thoroughly mixed, add four ounces of water. Take a teaspoonful every hour. Either disease will disappear in twelve hours. For a child, smaller dose according to its age. If countries would compel physicians to use this, there would be no need of pest houses. If you value advice and experience, use this for that terrible disease."

### Oregon House.

Mr. and Mrs. L. F. Winkleman have taken charge of the hotel which was formerly known as The Cottage and later as Hotel de Barry. Mr. Winkleman has taken a lease on the property and has thoroughly renovated and furnished the place. He has made the rooms comfortable and inviting, and the table under the supervision of Mrs. Winkleman, who will also superintend the kitchen work, will be furnished with the best that the market affords. The name of the establishment has been changed to the "Oregon House". Clean beds, comfortable rooms, and a good table will be found at the Oregon.

## OREGON'S BIG TIMBER BELT

Lake County Has 2000 Square Miles, Which is Estimated at Two Billion Feet Lumber.

The timber in Oregon reaches the enormous total of 234,623,000,000 feet, board measure. Lane county has more timber than any other in the State, with a total of 28,854,000,000 board feet.

Lake County has 2,000 square miles estimated at two billion feet, board measure. A. J. Johnson, Government Forestry expert, who has seen more of the timber of Oregon than any one, estimates the stand of merchantable timber in the state at 335,000,000,000, and over 100,000,000,000 feet in excess of the figures given out by the United States Geological Survey. He says:

The world's greatest timber belt is to be found in the counties of Clatsop, Columbia Washington Tillamook, Coos, Douglas and Lane. There is also magnificent timber in Polk, Lincoln, Benton, Yamhill, Marion, Linn, Clackamas, Multnomah, Wasco, Crook, Klamath Jackson, Josephine, Curry, Lake, Harney, Gilliam, Grant, Baker, Umatilla, Union and Willamette. There are about 55,000 square miles of timberland in Oregon, most of it being on the western slope of the Cascade mountains and of the Coast range. This forest would yield from 20,000 to 200,000 feet per acre. The estimate of the different species of merchantable timber in Oregon is as follows:

Yellow or red fir, Ore.	255,000,000,000
pine	15,000,000,000
Spruce	7,000,000,000
Hemlock	20,000,000,000
Yellow pine	8,000,000,000
Sugar pine	3,000,000,000
White pine	2,000,000,000
Sitka fir	1,000,000,000
Silver fir	2,000,000,000
Red cedar	1,000,000,000
White cedar	2,000,000,000
Tamarack	2,000,000,000
White fir	2,000,000,000
Miscellaneous—oak, ash, maple, etc.	17,000,000,000
Total	335,000,000,000

One-eight of the timber lands has been burned over. Two years ago it was not known there was any redwood in Oregon, but in Curry County there are 1,000 acres.

There are billions of feet of lumber of the smaller woods used for finishing and cabinet purposes, says the Oregon Timberman. The varieties are maple, myrtle, ash, black oak, white oak, live oak, tan bark oak, madrona, dogwood, wild cherry, yew, juniper, mountain mahogany, chinquapin, alder, barberry, and manzanita. At the low valuation of \$6.50 per thousand feet of manufactured lumber, the standing timber of Oregon represents on the basis of Mr. Johnson's estimate an asset, available at some time, of nearly \$32,200,000. The forests of Oregon east of the Cascade range are composed largely of yellow pine. This species crosses the range a little north of latitude 44 degrees. Here the western limit crosses the range and immediately runs northwestward down its slopes then, turning to the south and southwest, it crosses the valley just south of Roseburg, and passes into the Coast range. Sugar pine enters into the State from California, extends northward over the entire breadth of the Cascade range, and probably nearly to the Coast, its northern limit running as far north as the latitude of Oakland.

In mentioning the timber lands of Lake county it might be well to inform intending purchasers that the cost of timber lands is \$2.50 per acre in tracts

THE RETURN TO PEIN OF CHINA'S EMPEROR.

The Emperor of China is expected to return to his country in the near future. The Emperor is expected to return to his country in the near future. The Emperor is expected to return to his country in the near future.

### The "Hard Times Party."

On Wednesday evening, the 5th inst., after The Examiner went to press, Solace Circle No. 374, Women of Woodcraft, gave their much talked of "Hard Times Party," and it was indeed an occasion to remind one of "hard times." The make-up of some of the gentlemen present would have put to shame the original "Weary Willy" and "Dusty Roads," could they have looked in upon the scene that night. And the ladies, too, were made up perfectly to suit the occasion. There were really some hard-looking cases at the "hard times" affair. Some few had the audacity to attend in good dress, but found their mistake when the committee demanded of them heavy fines for wearing good toggery. The fines amounted to over \$12, which went to the Circle funds. All sorts of amusing games were indulged in until supper was announced. Each member of the Circle had sufficient eatables for their invited guests and there was ample provision made for all present. The lunches served in tin plates, and coffee drunk from tin cups were, excellent, and everybody enjoyed it. No guest was allowed to pay a fine, but whenever a fine was imposed it was paid for by the member for the guest. After lunch dancing began and continued until 3 a.m. It was a jolly, enjoyable and interesting entertainment throughout.

### A Surprise Party.

Last Friday evening, as the snow was falling fast and lying thick upon the ground, a crowd of fun-loving and mirth-making people stole quietly into the front yard of the residence of Mr. and Mrs. A. Y. Beach and did then and there attempt to sing. Mr. and Mrs. Beach were aroused from their dreams over book and paper in a most pleasing manner. The surprise was complete. Each one of the party represented a charade, and there was much amusement over the guessing. Mrs. C. R. Anderson guessed the largest number of charades and was presented with a prize. The evening was pleasantly passed in charades and games, and closed with refreshments, ice-cream and cake, brought along by the happy party—a feature that was thoroughly enjoyed by the surprised ones. Those present were, Mr. and Mrs. V. L. Snelling, Mr. and Mrs. W. A. Massingill, Mr. and Mrs. C. R. Anderson, Mrs. C. A. Knox, Misses Mae Miller, Mae Snider, Lulu Maxwell, Rose Venator, Messrs. A. H. Hamersley and Max Whitley.

### ONE WHO WAS THERE.

### Ralph Allen Moore Dead.

DIED.—At the Florence Sanitarium, Salem, Oregon, February 6, 1902, Ralph Allen Moore, youngest son of Mr. and Mrs. W. J. Moore, of Lakeview, age 11 years, 8 months and 21 days.

W. J. Moore is now on the way from Salem with the remains of his son, and is expected to arrive today. Announcement of the funeral will be made by card.

### Not District Attorney Bonner.

A report reached Lakeview Saturday night that District Attorney E. C. Bonner of Modoc County had died suddenly the previous evening in Oakland, Cal., of heart failure. The report turned out to be erroneous. It was the married sister of Mr. Bonner who succumbed suddenly.

### Madeline By April First.

Mr. Jno. M. Crawley, traffic manager of the N-C-O Railway, informs The Examiner that the prospects are that the Nevada-California-Oregon Railway will be operating to Madeline, 14 1/4 miles north of Termo, on the first day of April, 1902.

### Teachers' Examination.

The semi-annual teachers' examination for Lake county is now in progress, having been opened yesterday by County Superintendent Willits and the Board of Education. Six applicants were expected to be present to take the examination but only three appeared at the opening session. They are Miss Grace Driver, Miss Lulu Gilbert and Miss Inez Wheeler. Prof. T. J. Newbill, principal of the Paisley school, was appointed by Superintendent Willits to take the place of W. J. Moore on the Board of Examination.

### No. 10's Ball and Supper.

The ball and supper given at the McCulley place, in school district No. 10, last Friday night, was a most enjoyable affair. Quite a crowd from Lakeview attended and all report a splendid time and the best of treatment. The affair was given as a benefit for the new district and \$25 was the amount cleared. The supper gotten up by the ladies of the district is reported by The Examiner representative to have been one fit for the gods. The Examiner returns thanks to the good ladies for a fine and bounteous lunch.

## MOODY TURNS TRICK ON LUSK

An Argument That Throws the Leasers Into Spasms and Which They Admit True.

On February 5th F. C. Lusk, president of the American Cattle Growers' Association, was heard by the public lands committee of the House in favor of the Millard bill for leasing the public grazing lands. During the hearing Representative Moody of Oregon brought out the fact, previously unobserved, that the military wagon roads in Oregon, controlling a grant of 1,500,000 acres, could, under the pending bill, control 19 acres of grazing land for every one of their present holdings, or nearly half of the entire state of Oregon. The friends of the bill admitted that this was a correct construction of the proposed law, although it was not framed for that purpose. Mr. Moody also called attention to the fact that while the bill permitted homestead entries, it virtually blocked the operation of the homestead law by failing to provide that persons making homesteads on lands under lease could secure any leasehold and that homesteaders in the range section of Oregon, where transportation facilities are limited, unless they had the use of sufficient range to enter the stock business, could not make a living.

Representative Jones of Washington and Mondell of Wyoming also took part in the discussion. It is evident from the hearing that no leasing law will receive the endorsement of the committee until it meets the views of the settlers and stock-raisers generally in the Western states.

### Mrs. Gallagher Gets Pension.

Edward Michael Gallagher, deceased, who during the last part of his life resided just south of New Pine Creek, has been allowed a pension of \$6 a month. His widow, Margaret R. Gallagher, has been allowed \$8 a month. Mr. Gallagher was a war veteran, and for a long time the widow has been trying to get the pension. It would appear from the above that Mrs. Gallagher will receive a back pension of \$6 a month, and \$8 a month from the time she made application, for life. The many friends of the widow will rejoice to learn of her good fortune. Hon. Thos. H. Tongue took a special interest in this case, and is responsible for the worthy action on the part of the Government.

### Weather For the Week.

The U. S. Voluntary Observer station instruments at The Examiner office shows the following amount of rainfall for the week past, February 6th to 11th, inclusive:

February 6, rain	14 hun. in.
" 7, " (1 in. sn.)	20 hun. in.
" 8, "	25 hun. in.
" 9, "	41 hun. in.
" 10, "	12 hun. in.
" 11, " (1 in. sn.)	38 hun. in.
Total	1.50.

### Examiner and Bulletin \$6.50.

The publishers of The Examiner have been unable to renew a contract with the publisher of the San Francisco Daily Bulletin at the old rate, and subscriptions cannot longer be taken at the combination price for Examiner and Bulletin of \$5.50. New subscriptions and renewals on the combination offer from now on will be \$6.50. Even this is a saving, as the price of the Daily Bulletin alone is \$6. Remember, the price now is \$6.50.
