The Yellow Flag.

County Physician Hall reported last week four cases of smallpox in light form on the west side of the lake, 12 miles from Lakeview. Two of these cases are at the home of George Morris, one in the family of Mrs. Albert Morris and one at Dick Kingsley's. The disease was brought to the Morris place by one of the boys of the family who was in the Bly section and returned home. County

ERRORS---We make them; So does Every one.

We will cheerfully correct them if you will write to us. Try to write good-naturedly if you can, but write to us, anyway. Do not complain to some one else first, or let the matter pass. We want the first opportunity to make right any injustice that we may do. The little sermon deserves a wide audience. Few people have not had occasion at some time in their lives to regret the sending of a harsh or hasty note of complaint. It may be necessary to assert one's rights in subsequent letters, but there is no better rule of correspondence than to make the first one good-natured.

AYRES, WHITWORTH & AYRES

Judge Tonningsen, upon being informed by Dr. Hall of the prevalence of the disease, had each of the infected premises placed under strict quarantine, and established a fumigating station at the Hopkins corner, four miles west of Lakeview. All travelers from the West Side to Lakeview are compelled to stop at the station and "have a smoke." Ashley Follett has charge of the fumigating station and compels the travelers to partake of his hospitality whether they like to smoke or not.

Sometime last week a quarantine was placed on the residence of John McElhinney, as a precautionary measure, as it was reported that a disease resembling chickenpox prevailed there. Last Monday Drs. Smith & Steiner reported four well developed cases of smallpox at that place, and the yellow flag was hoisted at the premises. The physicians say that Will Blair and three little children of Mr. and Mrs. Blair are the victims, and that the disease is of the very mildest possible form. There has been some talk of putting a stop to all public gatherings in Lakeview for a time. This course has been suggested by all the resident physicians, and it remains with the Town Council to determine the matter. With proper precaution the disease can be confined to the places now infected, and there may be no danger of its spreading. The Examiner understands that the Blair family became exposed to the disease through a letter received by Miss Dovie Blair from her brother Dick Blair at Summer Lake, who stated that he had just broken out with the smallpox. On Monday, John McElhinney, at whose residence Mr. and Mrs. Blair make their home, was feeling badly and it was thought that he had also contracted the disease.

We understand that all the cases at Paisley are doing well, and that Jim Harper, whose case was the most malignant, is getting better. The yellow flag floats in the breeze at four residences in the Chewaucan town.

There is no excitement in Lakeview, as the authorities have taken prompt action in preventing a spread of the disease, and it is probable that the smallpox will not become an epidemic. Business goes on without a hitch, and there is no possible danger of people from outside of town becoming effected by visiting Lakeview as usual and attending to business.

Since the above was written The Examiner learns from a private source that several new cases have been discovered at Paisley.

The Oder of Flowers

That is what a perfume should be—true to Nature, delicate, lasting. We have just received a fresh lot from the place where the flowers grow. These are among the most delicate extracts made; they convey an air of refinement. If you have never used any of our perfumes, come in and sample them. A large variety to select from.
