The elements and muddy roads have no terrors for freighter Nycwerner. He arrived from Termo last Thursday with two wagons and four horses, loaded with 6,000 pounds of freight for Studley & Harris, the furniture men.

D. M. Gloster, well known by numerous citizens here, reported to have been found dead in his wagon after visiting Tonapah, has turned up at Reno to tell the Reno Gazette that the account of his death was "very much exaggerated."

The most delightfully blended whiskey known to the human palate is "Jesse Moore"—the standard for over fifty years.

After praying for forty years for a baby, an Illinois couple placed a small want ad. in a newspaper and that same night a bouncing boy was left on the doorstep. Prayer is all right if you aren't in a hurry, but for quick results use printer's ink.

Evidently the young man of the Post talks and writes so much that he sometimes forgets what emanates from his thinking machine. The Examiner's "private source" regarding smallpox in Paisley is the Post man, himself. "Go away back and sit down."

Your chickens are "lousy" and your chicken house is full of insects. Your hens don't lay, no matter how much you feed them or how well you care for them. Makes you mad don't it? Well just go to Schmink's and get a can of that "lice killer" and watch the results.

Lilburn Morris has returned from Summer Lake where he was engaged in building additions to the residence of Harris Bros., for several weeks. He stopped over night here and attended the meeting of the Circle, Women of Woodcraft, then left for his Drews Creek home with a load of supplies.

For over half a century "Jesse Moore" Whiskey has held its supremacy as the best, purest and most palatable. Sold by Jammertal.

The law compels the sheriff to sell all lands on which taxes have not been paid, and provides that tax sales be made not later than March 1st of the year succeeding that in which the levy shall have been made. Property will be sold to the persons bidding the lowest rate of interest, and certificates will be issued therefor, and deeds given to the property three years after such sale, unless the property shall have been sooner redeemed.

Flavored and seasoned in wood, rich and elegant with the best materials used by Distillers, it is no wonder that Jesse Moore is the leading whiskey in the world. 33

Commissioner A. Venator came in on the stage Tuesday evening from his home at Venator. He reports about eight inches of snow on Crane creek and nearly all stock being fed, though he has a band of about 3000 sheep that have stood the winter so far without hay. He has 5000 head of the Fister sheep however that he is feeding, they being in poor condition at the commencement of winter. In addition to his sheep Mr. Venator has several hundred head of cattle which he is feeding at the home ranch and at Lawen, and he says they are beginning to thin out the hay stacks. —Burns Items.

An old man from the country would not believe that he could hear his wife talk at a distance of fifteen miles by telephone. His wife went to a neighboring city one day and the old man went to satisfy himself by experimenting with the telephone. He went to the telephone exchange office and told them he wanted to talk to his wife. They explained how to operate the 'phone and the old gentleman walked boldly up and exclaimed, "Hello Jane." At that instant lightning struck the telephone wire and knocked the old gentleman down, and as he scrambled to his feet he excitedly cried, "That's Jane, by gosh."—American Telephone Journal.

Old Timer Returns.
Geo. W. Elliot, vice-president of the Portland & Nespelem Mining and Milling Co., arrived here Monday evening by the Southern Stage on a two months' visit with his daughter, Mrs. Geo. Harrow of Hotel Paisley, says the Post. Mr. Elliot has for some time been interested in mining about Republic, Washington, and recently went from here to Harvey, Wash., where he follows the same vocation. The Portland & Nespelem Mining and Milling Co. was incorporated in November of last year under the laws of Oregon with a capital stock of \$100,000. The mines are about 60 miles from Republic. Mr. Elliot speaks in glowing terms of the prospect of that section.

He says the mining interests about Republic have revived and considerable activity is manifest among mining men of that vicinity and the prospects for the future development of the mines in the near neighborhood of that once noted mining camp are bright.

Mr. Elliot is a former resident of this valley, having left here ten years ago. Numerous changes have been made but the general appearance of the country is familiar to him. He came by stage from Ashland and had a hard trip for an aged gentleman.

Date of School Elections.
The annual school meetings which have heretofore been held on the first Monday in March will this year be held on the third Monday in June. School officers whose terms would, under the old law, expire next month will continue in office until June. The fiscal year will also be governed by the change in the time of holding annual school meetings, so that school clerks, in making their annual reports, will cover a period beginning the first Monday in March, 1901, and closing the third Monday in June, 1902, or about 15½ months. The new order of things is governed by the act of 1901, the purpose of which was in this regard to make the fiscal school year correspond with the educational school year. The general election, for the choice of state and county officers, will be held on the first Monday in June, or June 2, and the school election will occur on June 16.
