**Bud Harvey's Misfortune**

Word reached here last Thursday to the effect that Bud Harvey, the well known Lakeview freighter, had met with an accident that day near Alturas which resulted in a broken leg. It was at first reported that the member was broken in two places, but the New Era in giving an account of the accident says that the large bone in the left leg was broken between the knee and ankle. The accident occurred on the hill near the X L ranch, and was caused by the wheel horse he was riding slipping and falling to the ground and catching the rider's leg underneath him. Luke Mulkey of Davis Creek happened to be in the vicinity and came up with Harvey just after the accident. He took the injured man to Alturas, and Dr. Gibson set the broken bone and made the patient as comfortable as possible. This is a most unfortunate accident as Harvey had been "laying up" all winter waiting for the freighting season to open so he could get to work with his team. He will be incapacitated for some time, and just when he can ill afford it. Bud's many friends will regret to learn of his misfortune.

**THAT "BRYAN DEMOCRAT."**

The innendo of the "Rustler" which directed attention to me personally needs no comment to show the nature of the man who penned the article—that shows for itself in stronger language than I could use. However, some of his assertions I will answer.

First: He asserts that I attempted to sell the Populist Party to John H. Mitchell in 1897. Now, if the editor of the Rustler wishes to prove his assertion let him come to my office and get the circular I issued to the party at the time of the "Hold up," and publish it, and let the people judge whether I tried to sell the Populists, or keep them from being sold. The Rustler editor evidently is not aware that an attempt was made, and proof offered before a Marion County grand jury, to indict several of them for receiving bribes to stay out of their seats in the Legislature, but he does know that my prediction at that time that that move would destroy the Populist Party in the State proved true.

Second: He alludes to me as a "mining expert," which I have never pretended to be, but he should know that any man who attracts attention to the mineral resources of this county, is a public benefactor.

Third: He refers to me as a "Howling Socialist." He cannot find one man who ever heard me say I was a Socialist, but I predict that he would have no trouble in finding Socialists when the Democratic Party departs from the principles of the Kansas City Platform.

Fourth: He says "Democrats have no use for 'Bryan Democrats,'" but all Bryan Democrats know that the Gold Standard Democrats haven't any use for them.

Fifth: The Rustler should know that in 1896 I gave the Democrats the only office the party got in the state, and sacrificed myself to do it—and then the Gold Standard men kept Jeff Myers (candidate for Congress) in the field against Vanderburg, who was only defeated for Congress by 63 votes out of a total of 44,000.

The editor makes no explanation why the Kansas City Platform was departed from, and he evidently does not read the press of the party, or he would know that W. J. Bryan, Chairman Jones, and, in fact the National press, are warning the Democrats of the Nation to beware of the continued attempt to capture the machinery of the party by men who are not willing to stand upon our National Platform. I refer him to the resolutions passed by the St. Louis Democratic Convention, to be found on page 3 of The Commoner of April 18. I also refer the Rustler to the fact that Chicago cast a vote of 5 to 1 in favor of municipal ownership of street car lines, water, gas, lights, etc. That was hated "Populist doctrine." Why abandon your platform and principles when they are gaining ground because of the soundness of the principle? No Democrat is personally attacking the Lake county ticket. But every Democrat has a right to know whether the candidates believe in the principles of the party whose name they have taken. If there is a good reason for not adopting the Democratic platform, give it! If they don't believe in it let them say so.  
C. H. DALRYMPLE.

Winter still lingers in the lap of Spring. Last Saturday night it began snowing in nearly every section of Lake county, and Sunday morning the ground was covered in Goose Lake valley to a depth of four inches. In a few hours it all disappeared. Nearly all the flocks were at the shearing corrals, or near them, and a few had taken the clips from the backs of their sheep. Light snow fell Sunday evening and Monday morning, but on Tuesday old Sol came out strong and bright again. Wednesday morning another snow storm came on, and we are not going to make any weather predictions for tomorrow or the next day.

It isn't necessary for a man to be an acrobat to tumble to the fact that advertising in The Examiner pays.
