Republicans of Oregon Make a Ringing Declaration of Principles.

The Republican party of Oregon, in state convention assembled, proud of its record and past history, its devotion to the principles of human liberty and human rights, its great and unparalleled achievements which led luster and glory to the American Nation at home and among the nations of the earth, and as an assurance of its continued fidelity to the great principles for which it has contended in the past in State and National affairs, does hereby make and affirm the following declaration of its principles:

The events of the late war with Spain carried us into the Philippine Islands. We hold it to be consistent with the primitive ideal liberty and of our National life that the sovereignty of the United States should be maintained in the islands under such local self-government as the people may become fitted for, and in such time as they may become fitted for participation in the United States from the Philippine Islands.

That is the war which President Roosevelt has inaugurated against the gigantic combinations of unexpended capital he has the united and enthusiastic support of the Republican party of Oregon.

We demand and insist upon the passage of the bill now pending in Congress for the exclusion of Chinese, known as the Mitchell-Kahn amendments.

We reaffirm our allegiance to the principles of protection to necessary cases of industries still in their infancy or unable to compete with foreign productions.

We recognize the right of labor to organize and combine for mutual protection under the law, and we recommend that the Legislature enact all necessary legislation to protect labor in all its rights and privileges. In the interest of American labor and the upbuilding of the workingman as the corner stone of the prosperity of our country, we recommend that Congress create a Department of Labor in charge of a Secretary, with a seat in the Cabinet.

We demand that a law be passed by the next Legislature placing all public officers of this state upon reasonable salaries, which shall not be increased during the incumbent's term of office, and beyond such salary they shall receive no compensation as fees of otherwise.

In order to promote the development of the mineral resources of the state, we are in favor of the creation and maintenance of a mineral bureau by the state.

We declare our approval and support of the suggestions of President Roosevelt for the irrigation of the arid lands of the country. This work should be undertaken by the United States as soon as possible, and carried forward on a consistent plan, under direction of the General Government.

We urge our Representatives in Congress and Senators to use every effort to secure the speedy opening of the Columbia river between The Dalles and Celilo, and for clearing the river of all obstructions to navigation from its mouth to the head of navigation. We urge also renewed and continued efforts for improvement of our Coast harbors and streams within the state, and the speedy construction of an isthmian canal.

That the public lands are the heritage of the common people and should be held in trust for the use and benefit of all people under the homestead laws. We are therefore unalterably opposed to all plans, schemes or propositions for leasing public domains, either to individuals or corporations.

We favor a policy by the state and the United States which shall further foster and support our fisheries, and we request the Legislature to enact such further measures as may be found by experience necessary to obtain this result.

We demand and insist upon the immediate passage by Congress of the United States of the oleomargarine bill, known as the new Grout bill, now pending in the Senate.

That we favor the proposed amendment to the state constitution providing for the initiative and referendum, and recommend its adoption by the people of the state.

We declare our approval of the principles of the primary law enacted by the Legislature at the session of 1901, and we ask the Legislature to enact the law so that in its main features it may apply to primary elections in all election precincts throughout the state. And we further recommend the election of United States Senators by popular vote.

The following resolutions were adopted: We, the Republicans of the State of Oregon, in convention assembled, realize that the time has come when every citizen of Oregon should demand that the arrears of the United States should at once recognize our old pioneer war veterans as soldiers, peasants or their legends.

We demand they be treated with as red indifference until the great majority of them have been carried to their graves in humiliating to us and to the valley soils in Oregon. They battled for the homestead rights of the Nation; engaged many hazardous; sacrificed as many lives in proportion to population, were paid $16 per month, as were the other volunteers, for their services, and now, that any reasonable or just man can question their rights to be recognized as United States volunteers, and placed on the Nation's roll of honor, is a problem mystery we cannot understand. We do not wish to be unreasonable, but if there has ceased to be a virtue and when we affirm that the people of Oregon and Washington are indignant at the treatment these veterans have received, we only voice the united sentiment of the people of the entire Coast.

Resolved, that longer delay in this matter is unjust, humiliating and inexcusable.

Resolved, that we request our Senators and Representatives in Congress to present this matter to the Honorable Speaker and the pension committee of the House of Representatives, and urge immediate action on the bill now pending in the House of Representatives to pension the Indian War Veterans of Oregon and Washington.

Resolved, that a copy of these resolutions be sent to the Honorable Speaker and to the chairman of the pension committee of the House of Representatives, and to each of our delegates in Congress.

We favor the establishment of a National Park, to include Crater Lake and its environs; and that it be forever maintained for the benefit of the American people.

Madeline, the new terminus of the Nevada California & Oregon railway, is building up rapidly, and will soon have two hundred people. It is said that a good many people are locating there, believing it to be a good business point for all time. It appears now that the narrow gauge will stop there for a long time—at least until some other road signifies its intention to invade this territory.

STOPS PAIN

Athens, Tenn., Jan. 27, 1901. Ever since the first appearance of my menses they were very irregular and I suffered with great pain in my hips, back, stomach and legs, with terrible bearing down pains in the abdomen. New Jersey's Good Roads.

New Jersey was probably the first state to make radical progress in road building. By her state aid law, passed in 1891, it was possible for the authorities, under the direction and petition of the taxpayers, to spend $450,000 a year in road improvement. Under this beneficent law ten miles of excellent roads were built the following year. Should that in the next year, and since 1895 the full limit of the amount allowed by law has been annually used. Allowing $5000 per mile, this means about 150 miles of roadmaking every year.

The Value of Contrasts.

There is nothing like contrasts to demonstrate the superiority of the good and the worthlessness of the bad in roadbuilding, says the Cleveland (O.) News-Herald. Every first rate highway is a powerful indictment of the folly which permits roads near it to remain in a state more befitting Spain than the great and rich American republic. The difference is so striking and so easy to see and feel that the argument silently made for general road improvement is the most potent possible.
