The "Desert" Lands.
The Post says that George Conn has a good stand of wheat on his "Oregon desert" ranch near Paisley. George Conn is one of the men who is, by his perseverance, demonstrating that the so called "desert" land of Southern Oregon is a misnomer. Dr. Withycombe, of the Oregon Agricultural College, who was in Lakeview last week, says that the name "desert" is a slander. He was surprised when he came over the "desert" country in the northern part of Lake county, and declares that the time is not far distant when these lands will be converted into prosperous farms. Dr. Withycombe informed an Examiner representative that nearly all the so called desert land of Harney and Lake counties can and no doubt will be, irrigated by the waters of the Des Chutes river.

WHAT'S IN A NAME.
Depends upon the name. Scott's Emulsion is a name that has value. Maybe it doesn't mean much to you—but to the consumptive who has been strengthened and fattened, to the sickly children who have received good health, to the weak mothers and babies who have grown strong—to these Scott's Emulsion means something.
To all of them it has meant an easy and natural return to health.
We'll send you a little to try, if you like.
