**A Safe Summer Beverage.**

BY AMOR GRAY, M. D.  
From the United States Health Bulletin.

During the heated season people need a cooling and bracing beverage. Such a palatable tonic most at once quench the thirst and revivify the energy that has become dulled by the high temperature of the blood.

To satisfy these requirements many kinds of drinks are offered the public, such as lemonade, composed principally of tartaric acid and water; the carbonated product known as soda water, that is so difficult for the stomach to assimilate, and very many more, that our limited space does not permit enumerating.

Popular usage has decided that a malted beverage best supplies the proper stimulation to give a tonic strength, to overcome summer lassitude. The best beverage we have found to be is pure beer. Not cheap beer, that may prove an overtax on the liver and thus cause headache, but pure beer, that in itself combines those good features so much desired in a summer beverage.

These United States Health Bulletin, being the highest American authority on all matters pertaining to health, sanitation and hygiene, have just completed an unbiased and disinterested examination and analysis into many brands of beer, and the result of laboratory investigation has proven the proper beer to drink and the purest and best to be the beer from the Lakeview Brewery of Lakeview, Ore.

This beer, therefore, has the full editorial and official endorsement of the United States Health Bulletin. Our Staff of Physicians have found that this beer yields the greatest tonic strength so much desired to assist digestion, that it keeps down the temperature and thus prevents sunstroke and establishes that proper perspiration that promotes mental and physical activity thus counterbalancing the effect of summer heat.

For home use it excels as a table beer, being of value to wives and children. As a preventative of disease it adds tone to the system and thus many forms of ailments are happily overcome. To the convalescent it is a tonic adding new strength and hope, while as a summer beverage it is par excellence. The above beer is carefully brewed, and from first to last the utmost cleanliness is maintained. It is filtered and refiltered and before being offered for sale it undergoes a final treatment that produces the best sterilizing effect, entirely eliminating all danger of germs and assuring the customer the purest and ripest of beer.

**Very Remarkable Cure of Diarrhoea.**

"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller, of Morgan, Texas. "I got temporary relief, but it came back again, and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physicians' prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of Medicine, costing but a few cents, cured me." For sale by Beall's Drug Store.

**Kansas City's Record.**

Kansas City enjoyed another record breaking year in 1901 in all her special live stock lines save that of horses. She received 2,000,165 cattle, 126,410 calves, 3,716,404 hogs, 980,078 sheep, 93,657 horses and mules and a total of 124,958 cars. These footings together form a total of 6,919,714 head of animals, valued at \$130,277,684, which is over \$4,000,000 more than her highest previous total—to wit, that for 1900. Her cattle were valued at \$37 per head, calves \$9, hogs \$11.50, sheep \$3.75 and horses \$91.25 in 1901 against \$41 for cattle, \$12 for calves, \$10.50 for swine, \$4.50 for sheep and \$76.25 for horses in 1900. In 1898 cattle in Kansas City were worth \$44 each and horses \$41.50 and in the year before that \$42 and \$41.50, respectively.
