All Legal Reserve Life Insurance Companies are under State supervision; all are alike responsible. The best company is the one that issues the most liberal policy and pays the largest dividends.

Large reserves and choice risks are the factors that insure large dividends to policy holders. The Washington Life is very particular in its choice of risks and has the largest reserve to the amount of insurance it has in force, of any company on this continent.

The Paisley Post occasionally draws public attention to Paisley as the proper location for the county seat. Big lumbering enterprises and a railroad in the north end, and big evaporation works by the Oregon Potash Company, might clinch an argument in that direction, but it is much easier to talk about removing county seats than it is to do it. The same with railroads—they are easy to build on paper.
