HOPEFUL VIEW

The hopeful view consumptives take of their own cases is strongly in their favor. Each year is showing a larger percentage of cures.

One of the best reasons for good hope is the record of Scott's Emulsion as a medicine for consumptives. So long as the system is strong enough to use medicine of any kind it can use Scott's Emulsion.

The reason for its helpfulness in this disease is because of its long tolerance by the patient; one does not tire of it as quickly as other medicines and that is where the great benefit comes.
